## Gymnastics, rifle previews

*Kenn Viscardi of Penn State is one of many athletes prominently mentioned in a preview of the gymnastics season on pages 8-9. The News also previews the rifle season on page 10.*

## Council pleased with select committee report

The NCAA Council received and took action on recommendations by the Select Committee on Athletic Problems and Concerns in Higher Education during the Council's October 10-12 meeting in Dallas and voted to receive the report "warmly

and enthusiastically."

The Council's vote also pledged to make every effort to provide appropriate forums for discussion of the committee's work and vehicles for action on its recommendations.

John P. Schaefer, executive director of the select committee and its chair for its last five meetings, appeared before the Council October 11 to present the report. He noted that additional editorial revisions might be made in the report prior to its distribution to the membership, but that no substantive changes would occur inasmuch as the committee had held its final meeting.

The report included four basic topics—academic issues, financial issues, governance, and enforcement and recruiting—and the committee's

positions and recommendations were essentially those reported in the September 26 issue of The NCAA News.

Council actions regarding the four basic topics were as follows:

### Academic Issues

The Council voted to sponsor legislation at the January Convention that will require a transfer student from a junior or community college to meet the same general requirements regarding satisfactory progress toward a baccalaureate degree that the student would have had to meet had he or she been enrolled in the four-year institution instead of a two-year institution. In short, the transfer who was not eligible to compete at the four-year institution

upon graduation from high school must graduate from the junior college and have 48 credit hours of course work that is acceptable toward a specific baccalaureate degree program at the four-year institution.

The Council voted to receive the select committee's recommendation that freshmen be ineligible for varsity competition in Division I football and basketball and agreed to refer it to the Special Committee on Academic Research or another appropriate NCAA committee for study in the future. It was noted that the select committee was not unanimous in recommending the freshman-ineligibility approach and had, in fact, reversed its position at times during its deliberations.

*See Council, page 16*

revisions.

"The several recommendations touching upon governance represent extremely important issues for the NCAA," John R. Davis, NCAA secretary-treasurer, said. "The Committee on Governance Review is intent on being responsive to the desires of the chief executive officers, and we want to prepare legislation toward that end in a deliberate and thoughtful manner." Davis serves as chair of the governance review committee.

He noted that his committee had met twice with representatives of the ACE committee at its request. "Philosophically, our committee is at odds with certain ACE positions, as we understand them at this time. The ACE's reported approach would establish a structure diametrically contrary to the Association's traditional, democratic procedure. We are aligned much more strongly with the basic position recommended by the select committee."

The select committee has recommended a board or council of presidents with the authority to review Association activities, commission studies of matters of concern in intercollegiate athletics and urge certain courses of action, and propose legislation directly to the NCAA Convention. The ACE committee reportedly will propose a presidents' board with the power to suspend an NCAA Convention action and to enact its own rules apart from an NCAA Convention, with both types of action subject only to a two-thirds rescission vote by the subsequent NCAA Convention.

Several Council members observed that the ACE approach seemed to question the integrity of NCAA Con-

*See Governance, page 11*

### Bulletin

The U.S. Supreme Court said today (October 17) that it will decide the issue of college football television controls. The court agreed to review the litigation filed against the NCAA by the University of Oklahoma and the University of Georgia Athletic Association. The Supreme Court's eventual decision is expected sometime in 1984.

John Paxson

Sue Walsh

Anne Donovan

Elizabeth Heiden

Randy Wittman

## First of NCAA Today's Top Five finalists are selected

One finalist is an Olympic speed-skating star; another a world-class swimmer and NCAA champion. Three other nominees have played basketball the world over, earning all-America honors on the court and in the classroom.

These are the credentials of the winter-spring nominees for the NCAA Today's Top Five awards. This group is the first half of the 10 student-athletes to be nominated for the

awards, which will be presented at the NCAA honors luncheon during the Association's annual Convention in Dallas next January.

Elizabeth Heiden, speed-skating champion from the University of Vermont, and Sue Walsh, an outstanding swimmer from the University of North Carolina, Chapel Hill, were selected, along with three all-America basketball players—Anne Donovan of Old Dominion University; John

Paxson of the University of Notre Dame, and Randy Wittman of Indiana University, Bloomington.

These finalists were judged on their participation in winter and spring sports during the 1982-83 academic year. Five additional finalists will be selected following the fall sports seasons.

Athletic ability and achievement are only two criteria used. Character, leadership, extracurricular activities

and academic achievement are considered. Student-athletes must be seniors during the current academic year to qualify.

### Anne Donovan

Donovan scored 2,000 points before the end of her junior year at Old Dominion, a school first. She holds nine school records, was named most valuable player in six tournaments and received the Naismith

Award as the country's outstanding women's basketball player.

While earning a degree in leisure studies, Donovan maintained a 3.480 grade-point average and twice was named to the College Sports Information Directors of America (CoSIDA) academic all-America team. She also has been awarded an NCAA postgraduate scholarship.

Donovan was active in the Association. *See First, page 16*

# Coaches' trip becomes life-saving rescue run

By Bob Smizik  
Pittsburgh Post-Gazette

Their plans were to remain in Louisville that night to attend a coaches' reception following a clinic they had attended. But at the last minute, acting on a whim, they decided to leave early and head for Lexington, where they had an appointment the next day.

Once in Lexington on a Saturday night last month, they should have been on Rose Street, the route they almost always take to get to the Radisson Hotel. But for no particular reason, they were on Maxwell Street, near the University of Kentucky campus.

It was almost as though fate was taking these two University of Pittsburgh basketball coaches, Roy Chipman and Reggie Warford, on a special trip.

Warford, the assistant, was driving. Chipman, the boss, told a joke. Warford looked over and laughed. In the split second that he took his eyes off the road, Warford thought he saw a flame shoot out of a nearby house.

Chipman saw nothing. They drove another 40 yards, stopped the car and ran back to the house. They looked in the house and saw no one. They went to the house next door and asked the elderly woman who answered the door if they could use the phone to report a fire. The woman told them she had no phone.

She also told them she knew for certain there were two people inside the burning house.

When Warford and Chipman went back to the house, they saw a man attempting to get out the front door. Then, he disappeared from their sight. Both men put their shoulder to the door, but the deadbolt that secured it did not give. Then, Warford went at it himself, delivering a karate-style kick in the area of the lock. The door fell.

By then, the man who had been attempting to get out had fallen back onto a couch. The couch was on fire.

Warford plunged inside, put the man on his shoulders and began to carry him outside.

"The man was elderly," said Warford. "He had sort of given

up. Doc (Chipman) was trying to put out the fire because it was getting pretty bad."

As Warford carried the man from the room, he noticed a woman lying on the floor behind the couch. He carried the man outside to the porch, where Chipman pulled him away. Then Warford went back inside to get the woman.

By then, the house was smoking so much it was too difficult to get back inside. "It seemed like everything was catching fire," said Warford.

But he brought the woman out. As he did so, Chipman and others who had gathered on the porch saw her say something to Warford. Reggie put her down and went to help Chipman

## Columnary Craft

and the others move a heavy, dirt-filled planter into the area of the blaze.

The big metal planter was so heavy that Chipman and the others were having trouble carrying it. Warford, who is 6-feet-2 and 185 pounds, picked up the planter by himself, carried it inside and threw it on top of the kerosene stove—the apparent origin of the fire.

Warford and the others began spreading the dirt around to extinguish the flames. Warford pulled down some curtains that were burning and kicked dirt on them. Then, he did something remarkable. He left the others and rushed to the back of the tiny row house, searching.

"After the first six or seven steps, my throat was burning," he recalled. "I was having a hard time. It was hard to breathe."

Running low, he went through the front room, through the kitchen to the back bedroom. He stayed there until Chipman screamed for him to get out.

By the time the Lexington fire department arrived at 510 West Maxwell Street, Warford, Chipman and other passersby had the fire under control.

Warford watched as medical people worked on the woman.

"She put her arms around me and pulled me down and kissed me on the cheek and said, 'Thank you. I don't know what I would have done without you.'"

A fireman came over to Warford and asked him if he were responsible for putting out the fire. Warford said yes. "You did good," said the fireman.

They wanted Warford's name. He declined to give it.

Some 45 minutes after they stopped, Chipman and Warford were back in the car, heading for the Radisson.

"We were quiet for a long time," said Warford. When they got to the hotel, Chipman said, "Warford, I can't believe you did that."

It was Kentucky's homecoming weekend, and Warford is a Kentucky graduate. "I had a lot of friends in town," said Warford. "I had planned to go out with the fellows, but when I got back to the room I just sort of sat on the bed. When I realized what I had done, I got scared and started shaking."

"I wish it hadn't happened that way. I wish we had gone to the front door and told the people their house was on fire and they could have walked out by themselves."

"There were people in front of me and behind me who had not stopped. What I think happened is that we might have prevented a tragedy. I don't think those people would have had a good chance if someone hadn't stopped."

Reggie Warford stopped. And Reggie Warford pulled a stranger to safety. But why did he then leave the others and fight his way through choking smoke to the bedroom of the little house?

You may remember that the woman he rescued said something to Warford as he brought her out of the house. What she said was: "I've got to get my baby." And that is what Reggie Warford was searching for in the back of the house.

"I looked under the bed and in the closet," said Warford. "I thought if it were a child, it might be frightened and hiding."

It wasn't, though. Later, after the firefighters arrived, Warford would learn that the woman had been delicious and was talking about a granddaughter. The little girl lives in another part of town.

## Investigations are too publicized

Gale Catlett, basketball coach  
West Virginia University  
Associated Press

"I wish the fact that it was a minor violation (NCAA's reprimand and censure of the basketball program) had received as much publicity as the fact that we were being investigated."

"It's not that big of a deal, but in a situation like ours, where there is so much interest in the program and some

### Opinions Out Loud

of the reporters are the investigative type, it gets out in the paper.

"I guarantee you that every school in the country breaks a rule, and they may not know it."

Earle Bruce, football coach  
Ohio State University  
Associated Press

"Having freshmen ineligible without increased scholarships will be detrimental to your program. I think it's a good idea for freshmen to be ineligible, but not unless you increase your number of scholarships."

"If they ever would pass legislation making freshmen ineligible without increasing scholarships, I don't know how we would line up without freshmen."

"Anyone who thinks they have three quarterbacks or three tailbacks is absolutely crazy. I found out. You have one. It only takes a couple of injuries and you're out of it."

Norman Manasa, director  
Washington Education Project  
Houston Chronicle

"People who can't read will not be able to do the work that will be required in the coming technological era. They not only will be unemployed but unemployable

(and, perhaps, ungovernable, as well); they will need to be fed and housed and cared for by society for their entire lives."

"We must teach these people to read. Otherwise, they will create a constant drain upon the economy and exact massive social costs that I do not think the nation can bear."

Bob Collins  
Columnist  
Rocky Mountain News

"... college football has become such a deadly serious big business. What I'd like to see ... is coaches giving their players time to look around other campuses on road trips ... it not only would be nice but appropriate for the host school to throw a dinner the night before a game so that the players could get to know each other."

"If more 'welcome to our house' efforts were made, I don't think bad feelings between schools ... would develop."

"The decline of good sportsmanship is being deplored in many circles. I suspect we've asked for it by treating games involving college kids as if they were World War III."

Norman Hackerman, president  
Rice University  
Associated Press

"We are aware that Rice has not been competitive in athletics in the last few years. The board of governors and the administration intend to take appropriate measures to reverse this condition."

"I'm not looking on it as a program designed to make it easier on athletes to finish school. It's a program which I believe is useful to music majors, engineers who don't want to take a full business course, architects who want to know something about business and humanities."

"That's why I described these programs (adding \$300,000 to the athletic budget and expanding athletic tutoring and overall curriculum) the way I did, as academic programs. It's not designed to get lamebrains in and out. We don't want any lamebrains. It's designed for the athlete as a student and that's the way a university ought to do it."

Jim Brock, executive vice-president  
Cotton Bowl  
Associated Press

"When the national title started hinging on how the bowl games came out, then the pressure came down on everybody. The bowl really isn't the reward (for the players) it used to be. It used to be more of a fun game for two teams that had successful seasons. No more. There's pressure for the national rankings and the TV ratings."

## Questions/Answers

**Q.** How many copies of The NCAA News do member institutions receive as part of their dues payments?

**A.** All Division I institutions receive 30 copies; Divisions II and III institutions receive 20 copies each. Additional copies can be obtained at the normal subscription rate of \$15 per year.

Updates or additions should be directed to the News staff at the NCAA national office.

Readers are invited to submit questions to this column. All questions pertaining to the NCAA and intercollegiate athletics will be answered in future issues of The NCAA News as space permits. Submit questions to: The NCAA News, P.O. Box 1906, Mission, Kansas 66201.

# Former nun puts 'Huskers to the test—academically

By Kay Bartlett

Sister Raymond, Dominican nun, looked over the study program for the University of Nebraska, Lincoln, football team and thought maybe she could improve it.

The nun, who was working on a doctorate at the university and teaching a few courses, talked to Tom Osborne, then the assistant coach as well as academic counselor.

He was impressed by her suggestions. He offered her the job of academic counselor. She took it and six months later made a tough decision. She chose to leave the religious life she had led for 20 years to make this her life's work.

Starting salary: \$3,000 a year.

That was 1972. Today, that salary has been increased more than 10 times that amount; the job has greatly enlarged. Sister Raymond is now Ursula Walsh and the University of Nebraska has had more academic

all-Americans than Stanford or Notre Dame in the past eight years.

The football players call her Urs.

"Once in a while, one of the freshmen will call me Dr. Walsh, but they soon learn it's Urs," says Walsh, a diminutive woman of clear Irish ancestry, with sparkling blue eyes under dark brown brows and closely cropped steely gray hair. She has only laugh lines in her face and looks far younger than her 51 years.

Walsh had never been to a football game before she took the job. Now she goes to all the home games and some of the away games but confesses her knowledge still is rudimentary.

What she does know is how to run a study table, how to spot when something—anything at all—is impeding the academic progress of her boys and how to deal with people who want to attach the dumb jock stereotype to these mostly burly young men. That sometimes includes pro-

fessors.

"One professor was giving me a hard time once," she recalls. "I said to him, hey, wait a minute. My academic credentials are as good as yours and we're in the same business—the business of education."

She can be equally tough on these powerful young men—kids, she calls them—whom most analysts have picked as the No. 1 college team this year.

"I sometimes poke them in the chest to get their attention. But it's my way or the highway, and they all know that."

She also helps them make the adjustment from high school star to a possible also-ran at the Big Eight level.

"Some of these kids never sat on a bench before. They were dominant in their leagues. That's tough on them and that's part of my job. Anything that impedes their academic

progress is my domain."

Walsh is academic counselor for all nine sports that men compete in at the university, but most of her time is spent with the football players. There are more of them, and the Cornhuskers are an institution in themselves. She also teaches two courses in biostatistics.

Mike Rozier, the Cornhuskers' star running back from Camden, New Jersey, says Walsh helped him a lot when he was a freshman.

"That first year here I was so homesick being stuck in Nebraska. It was messing me around. She told me I could come over to her house. She explained it was just part of growing up. It was life. She really built up my confidence."

"Urs is all right."

Bill Weber, 6-foot-2 defensive end and an academic all-America, says there's not too much conflict when Walsh makes suggestions.

"We don't second-guess her very much. She's separate from the football part. For a lot of guys, she's also a mother away from home."

Walsh admits a big deal is made of being an academic all-America, players with a minimum 3.000 grade-point average who are chosen by college sports information directors across the country. They are selected for football prowess (40 percent), academics (40 percent) and community activities (20 percent).

"I keep their picture up in my office," she says.

Walsh is not athletically inclined. She puts it more frankly: "I'm uncoordinated. I tried to take tennis lessons once and it was a joke."

One of a family of six children, she was born in Sioux City, Iowa, and entered the convent after one year of college. She took her father's name, Raymond, when it was time. Her

present job brings a chuckle to mind when she thinks of her late father, a real football fan.

"He would have sold all of us for one football player."

She has taught elementary school in an all-black school in Alabama, where she and the other Dominicans, then dressed in the traditional long white habit and black veil, had to go to the public library for the students because Blacks weren't allowed in.

She has taught high school and been a high school administrator, moving to Minneapolis; Wausau, Wisconsin, and Chicago, before Lincoln, Nebraska.

Along the way, she collected three master's degrees—math, physics and statistics. "That's a typical convent education. It makes you flexible."

Her mother met her here for the football opener, and the mother's pride was obvious.

"She can do anything," she says.

Walsh says leaving the convent was not easy.

"I loved the convent life. I was surrounded by intelligent, dedicated and generous people," she says. "But what I'm doing now is not that different from what I did as a high school administrator. It's another form of education and nurturing. It's responding to people's needs."

But it was a definite adjustment. Sister Raymond knew nothing of everyday things like buying car insurance and making monthly payments and running the little house by the lake, where she lives alone.

Ursula Walsh quickly learned all these things. She was a quick study—or as her mother said: "She can do anything."

Except play tennis.

Bartlett is a writer for the Associated Press.

## Administrative role grows apace with expansion of women's sports

(Second in a series on women's intercollegiate athletics)

In the years prior to 1981, equality for women's athletics programs often was seen, like prosperity, as being just around the corner. But the turn was never quite made.

The January 1981 NCAA Convention, however, proved to be a watershed in the movement toward that equality. Association delegates, a record number, voted to adopt a governance plan to provide programs and services and administrative involvement for women within the NCAA structure.

At the time, Richard H. Perry, director of athletics at the University of Southern California, said, "The governance plan forces men and women finally to sit together and figure out a common set of rules for athletes."

Additionally, a commitment had been made to guide women's intercollegiate sports toward national prominence.

In the past two years, women's athletics programs have made significant strides in growth and toward national exposure. The new competitive and educational opportunities for women have been well documented ("Women's programs gaining depth, visibility," The NCAA News, October 10, 1983).

Administratively, women's representation has been provided on the NCAA Council, Executive Committee, steering committees and general committees. Each women's sport now is provided a committee to enhance its growth and development.

The national office, anticipating the full integration of women's programs, named as director of championship events for women an administrator who was nationally recognized as one of the most competent in college athletics.

In September 1980, that administrator, Ruth M. Berkey, was given

the charge of administering the women's championships that were established by Divisions II and III at the 1980 Convention. She was given the additional responsibility of representing women's sports interests in all facets of NCAA operations.

Berkey had been director of athletics at Occidental College since 1977. She served as dean of women from 1965 to 1968 and was named associate professor of physical education in 1968. She also coached six women's sports. In 1979 and 1980, Berkey was nominated for president of the Association for Intercollegiate Athletics for Women.

To assist Berkey, two women were named to assistant director of championships positions. The number of championships had grown to 29 after the 1981 Convention.

Patricia W. Wall and Patricia E. Bork joined the national office championships staff in February 1981.

Wall had spent 27 years at MacMurray College in Jacksonville, Illinois, where she had served as chair of the physical education department since 1978. She coached women's volleyball and men's swimming at MacMurray, where she had received a master's degree in 1959.

Bork, a national office staff member since 1978, previously worked in the NCAA publishing department. Earlier, she had been a writer and a production assistant for The Golf Superintendent, the official publication of the Golf Course Superintendents Association of America. Bork also worked in the publications division of the office of university relations at the University of Kansas, where she earned a bachelor's degree in 1976.

In June 1981, a third position was added to assist with women's championships.

Cynthia L. Smith, who has an extensive background as a coach and athletics participant, joined the championships department. Smith,

who earned a master's degree at the University of Missouri, Kansas City, served on the staff of the Fellowship of Christian Athletes, where she instituted that organization's women's program.

At Missouri, she participated in golf and volleyball. She has coached volleyball, swimming, and track and field.

In September 1982, Berkey left the day-to-day administration of women's championships to assume primary staff leadership responsibilities for all areas of women's athletics. Replacing Berkey as director of women's championships was Bork, who had completed 1½ years as assistant director of championships.

The restructuring had been approved by the Executive Committee as part of a continuing commitment to the support and enhancement of women's athletics.

Named to replace Bork was Tamatha J. Gannon, who had been responsible for all aspects of the Big Eight Conference championships program for women.

Gannon is a graduate of the University of Maryland, College Park. She earned a master's degree in sports management from the University of Massachusetts, Amherst, in 1980.

At the same time, the position of assistant director for women's programs was created in the NCAA administration. The post was filled by Cheryl L. Levick, who had been serving since 1977 on the athletics staff at Slippery Rock University of Pennsylvania. She had been interim director of athletics for six months prior to joining the NCAA.

Levick's gymnastics teams at Slippery Rock finished in the top five nationally in three consecutive championships conducted by the AIAW. Levick is a graduate of the University of Missouri, Columbia.

See Administrative, page 15

## NCAA wins English litigation

The Louisiana State Supreme Court has issued a ruling supporting the position of the NCAA in its litigation with Tulane University student-athlete Jon English.

The supreme court's ruling, which was issued October 14, upheld earlier decisions issued by the state circuit court of appeals and the civil district court supporting the position of the NCAA that English is not eligible under the Association's transfer rule to participate this season in intercollegiate football competition.

The issue in the litigation was the

NCAA Council's decision that English was ineligible under the Association's transfer rule as a result of his decision to transfer to Tulane, where his father became head football coach this fall. English has played in six games this fall under a series of restraining orders, the first received hours before he took the field in the second half of the season opener September 3.

The supreme court upheld a previous decision by the circuit court of appeals based on the position that there is nothing in the record to

support English's claim that the NCAA was "arbitrary, capricious, unfair or discriminatory in dealing with this case."

The court of appeals found the NCAA's interpretation of the transfer rule to be "absolutely correct." The court noted that the rule, Bylaw 5-1-(k)-(1), deals with a present college attempting to certify a player as eligible when he has played for a previous college.

In a summary of the basis for its decision, the court noted that the

## Letters to the Editor

### Comments are frightening

To the Editor:

Northern Iowa coach Darrell Mudra's statements ("Coach equates defeat with death," September 19 NCAA News) are equally bizarre and frightening. Bizarre, in that he writes: "I see nothing wrong with equating defeat with death." Surely then, coach Mudra must be an expert in the field of death.

Bizarre, in that two paragraphs later, he writes: "I hope my players also learn that neither winning nor losing is as important as what they learn about themselves." Quotation No. 2 seemingly contradicts quotation No. 1.

Frightening, in that coach Mudra isn't sure which side of the fence he'd like to be on.

Frightening, in that this man, who apparently dies every time he loses, is entrusted with the lives of young men. Perhaps coach Mudra ought to coach some intramural sports himself, where he might discover that games are games and then tell us which are worth any kind of death.

Tom Giffen  
Executive Sports Editor  
Akron Beacon Journal

### Shakespeare said it

To the Editor:

Darrell Mudra, the head football coach from the University of Northern Iowa, whose letter appears in the September 19 NCAA News, should be reminded that it was really not Caesar who was the author of that vivid comment about cowards, dying, and the valiant, but Shakespeare, who put the phrase in his character's mouth in the play "Julius Caesar."

T. C. Ware  
Department of English  
University of Tennessee, Chattanooga

### Freedom taken for granted

To the Editor:

Freedom, at times, is taken for granted. That is, until a nation, a people, an organization, a college suddenly realize that their freedoms are in danger.

Because Grove City College, a four-year, independent, nondiscriminatory college about 60 miles north of Pittsburgh, chose not to sign a Title IX form the government required of it, the government's actions have cost the college countless man-hours, unlimited energy and large sums of money to preserve its freedom to provide quality education in a Christian atmosphere.

Grove City College, along with four of its students, has taken the U.S. Department of Education (formerly the Department of Health, Education and Welfare) to court to endeavor to maintain its educational freedom. The college does not receive, nor does it want to receive, any government money. Similarly, it does not discriminate, nor has it done so in its long history. But it is resisting the government's attempts to assume jurisdiction over its affairs.

Robert W. Smith  
Director of Public Relations  
Grove City College

## Football notes

## Six Division I-A teams unbeaten, untied

## The slippery six

Only six undefeated and untied teams are left in Division I-A, out of 105 members. There were the same number of perfect records in the major ranks at this stage a year ago, but there are some differences.

A year ago, four of the six perfect-record teams had won seven games. Now only Nebraska and North Carolina have seven victories. West Virginia and Toledo have six victories each, and Southern Methodist and Texas have won five each.

Southern Methodist is the only repeater from the 1982 perfect list (the other five a year ago were Georgia, Arizona State, Washington, Pittsburgh and Arkansas; however, Georgia and Arizona State are among three unbeaten but once tied teams now—the other is Florida. A year ago, UCLA and Louisiana State were unbeaten but once tied at this stage).

From another angle, there now are 25 teams with just one blemish on the record—that is, a loss or a tie. A year ago, there were only 22 such teams. With just one blemish on the record at this stage, teams can dream of being voted national champion. After all, Penn State was voted the crown last year with one loss.

Of the six current perfect-record teams, it would seem that five have the toughest part of their schedule behind them—at least according to the NCAA's toughest-schedule computer program. The exception is North Carolina:

	Past	Future	Total
West Virginia	.630	.452	.534
Texas	.650	.450	.530
Nebraska	.514	.483	.500
Toledo	.500	.417	.452
SMU	.467	.435	.446
North Carolina	.346	.523	.427

Texas has faced the toughest schedule of the "Slippery Six" so far. Its five foes have won 13, lost 7 for .650 against I-A opponents when not playing Texas. The six remaining Texas foes are only 12-15-3 against I-A opponents, but one of them is Southern Methodist this Saturday at Dallas. Similarly, Nebraska's remaining foes include Oklahoma, and West Virginia's future opponents include Miami (Florida) and Penn State. North Carolina's remaining foes include Maryland, Clemson and Virginia. Toledo's list includes Central Michigan and Northern Illinois, both 5-1.

Remember, the toughest-schedule program merely shows what all I-A opponents did against other I-A teams when not playing the team in question. It is a won-lost measurement and nothing else.

## The fortunate four

Only four undefeated and untied teams are left in Division I-AA, out of 84 members. A year ago at this stage, there were just two—Eastern Kentucky, which went on to take the I-AA national championship in the play-offs, and Colgate. Eastern Kentucky is perfect again, having won its first five. Holy Cross has won six, and Southern Illinois and Jackson State lead the pack with seven victories each.

The toughest-schedule program shows that Eastern Kentucky has faced the toughest lineup of any "Fortunate Four" team to date, while Jackson State has the hardest remaining schedule. But overall, Holy Cross' schedule is the toughest:

	Past	Future	Total
Holy Cross	.571	.542	.558
Jackson State	.462	.611	.523
Southern Illinois	.423	.442	.433
Eastern Kentucky	.667	.200	.413

Eastern Kentucky's first five opponents had a 14-7 won-lost record for .667 vs. I-AA and I-A opposition when not playing Eastern, but its remaining foes are 5-20 against such opposition. Jackson State has a big game this Saturday against Grambling State at Jackson, Mississippi. Holy Cross closes with Delaware and I-A

Paul Lewis of Boston University is the leading rusher in Division I-AA with 154 yards per game

Boston College. Southern Illinois has a big one this Saturday at 5-2 Indiana State.

## Pacific-10 takes passing lead

As we have been saying for weeks, this is another record year in passing. The average now is 369.8 yards per game, both teams combined—all games involving at least one Division I-A team. That comes out to 184.9 per game, per team. At the end of 1982, the figures were 364.8 and 182.4. The conference leader last season (and in 1981 as well) was the Pacific Coast Athletic Association at 252.6, with the Big Ten second and Pacific-10 third.

The Pacific-10 is the national leader so far this season at 227.7 per game, per team, with the Big Ten second at 206.1, Western Athletic third at 202.9 and the PCAA has dropped to fourth at 201.8. Fifth is the Atlantic Coast at 191.1.

## Atlantic Coast takes rushing lead

The Big Eight has been a perennial leader nationally in rushing yardage. Its leading figure at the end of 1982 was 216.1. Now the Atlantic Coast has taken the national lead in rushing at 200.8 yards per game, per team (current national average: 166.7) with the Big Eight second at 189.7, the WAC third at 184.3, the Southeastern fourth at 178.7 and Southwest fifth at 177.2.

## ACC, WAC 1-2 in total offense

The WAC led the nation in total offense at the end of 1982 with the ACC second; but now the ACC has taken No. 1 at 391.9 yards per game, per team (national average: 351.6) with the WAC second on 387.2, followed by the Big Ten 369.0, Pacific-10 368.9 and Big Eight 363.0. The WAC, by the way, pulled a stunning reversal of its long-time form a year ago by ranking second in rushing and down the list in passing, but this fall things are back to normal—passing is again on top.

## Big Eight leads in scoring

The Big Eight, well down the list a year ago, now leads the nation in scoring at 26.1 points per game, per team (national average: 22.1). The ACC, second at the end of 1982, is second now at 25.0. The WAC, first for 1982, now is third at 24.6, edging the Pacific-10's 24.3, with the Southern independents fifth on 23.9.

## I-AA has familiar look

The conference leaders in Division I-AA have a familiar look. The Big Sky led the division in passing a year ago and again ranks No. 1 by a wide margin with 219.3 yards per game, per team. The Ivy League, third a year ago, now is second with 193.1 and the Southern independents, second at the end of 1982, are now third at 192.3. Eastern independents have moved to fourth at 190.7.

In total offense and scoring, the Eastern independents led for 1982, and they now are leading again with

Jeff Williams of Slippery Rock is the leading punter in Division II with an average of 45.8 yards

353.2 rushing-passing yards per game and 24.5 points per game. The Big Sky is second in total offense at 342.1, Ivy third at 339.4 and Southern independents fourth at 332.6. In scoring, the 2-3-4 rankings go to the Mid-Eastern (23.1), Big Sky (22.5) and Southern independents (21.8).

The Yankee Conference was the national I-AA leader in rushing for 1982 but has dropped to fourth now behind the MEAC (176.9), Southland (171.2) and Eastern independents (162.5). The Yankee average now is 159.8 (vs. 202.1 in 1982).

## Bennett leads in career yards

Duke senior Ben Bennett leads all active I-A players in total passing yards for his career at 8,160. He needs another 1,377 yards in his last five games to break the all-time I-A career record of 9,536 (Jim McMahon, Brigham Young '81). That is a per-game average of 275.4, and Bennett's current season average is 272.0; so, he has an excellent chance for the record.

Nine more current players have exceeded 5,000 passing yards. They are Arizona's Tom Tunnicliffe at 6,715, Purdue's Scott Campbell 6,627, Wake Forest's Gary Schofield 6,289, Florida's Wayne Peace 6,262, Brigham Young's Steve Young 6,018, Boston College's Doug Flutie 5,994, Colorado State's Terry Nugent 5,604, Kansas' Frank Seurer 5,140 and Maryland's Boomer Esiason 5,127. Flutie is a junior, the others seniors.

## Young leads in career efficiency

BYU's Young, the current national leader in passing efficiency, also leads the list in career efficiency at 144.8 (he has 29 career interceptions vs. 40 touchdown passes). Among players with at least 2,500 career passing yards, Nebraska's Turner Gill is a close second to Young at 143.2 (he has just nine career interceptions in 354 attempts vs. 29 TD passes and has thrown for 2,776 yards). Young, by the way was a junior varsity player as a freshman and had just 731 yards as a sophomore, so nearly all his yardage has come in two seasons.

Baylor's Alfred Anderson is one of the leading rushers in Division I-A with 99 yards per game

Young also remains on target to break McMahon's NCAA season record of 385.6 total offense yards per game in 1980. His current average is 406.3, and he can break the record with 1,804 more rushing-passing yards in his last five games, or 360.8 per game (Young is playing 11 games. McMahon played 12 in 1980 and gained 4,627 yards).

Bennett also leads all current players in total offense with 7,670 for his career. That is far short of McMahon's all-time-high 9,723 (he would have to average 410.8 in his last five games to break it; his current average is 259.8).

## Hobart leads in I-AA

Idaho's Ken Hobart is far in front in I-AA career total offense at 9,453 yards and in passing yardage with 7,737. If he stays healthy, he seems certain to become only the second player in history in any NCAA division to reach 10,000 yards in total offense. The first was Neil Lomax of Portland State, with an awesome 13,345 yards from 1977 to 1980.

## Quotes of the week

New Mexico State has had just one winning season in the past 15 years, so the question by coach Fred Zechman's five-year-old daughter to her mother was understandable: "Mommy, because the Aggies lose so many games, is that why they call the town 'Loss' (as opposed to Las Cruces)?" After the Aggies upset Iowa State, Gretchen's next question was predictable: "Mommy, if the Aggies start winning, will they change the name of the town to 'Won' Cruces?" (Peter Kynion, *New Mexico State SID*)

Kansas coach Mike Gottfried after contrasting road trips—a 26-20 upset victory at Southern California and a 35-38 upset loss at Iowa State: "One week, the band is waiting on you; next time, the dog is barking at you." (Doug Vance, *Kansas SID*)

When Nebraska-Omaha played South Dakota State, sixth-year coach Sandy Buda came onto the field wearing a tuxedo. Why? It was homecoming, the school's 75th anniversary (to the day) and the game was

Mississippi Valley's Jerry Rice has an 11.3 average to lead Division I-AA receiving

regionally televised. Said Buda: "It was a special day. If Johnny Carson can wear a tux every year for his anniversary show, then I ought to be able to wear one once every 75 years for our anniversary." (Gary Anderson, *Nebraska-Omaha SID*)

Purdue quarterback Scott Campbell after a 29-29 tie with Michigan State: "I don't know how I feel. I'll have to go kiss my sister and see which is better." (Jim Vruggink, *Purdue SID*)

Arkansas coach Lou Holtz before his team's game with Texas: "Who did I pull for in the Texas-Oklahoma game? Let me put my loyalties on record. Whenever anyone from Arkansas is playing, I always pull for that team. When an Arkansas school isn't involved, I'm for the Southwest Conference. If a league school isn't involved, I'm for the United States. If our country isn't involved, I'm for the universe."

Holtz on the Texas team: "Nebraska is a great team, but Texas is awesome. Some people have Nebraska playing in the NFL. If that's so, Texas should be playing on Monday night." (Rick Schaeffer, *Arkansas SID*)

Pittsburgh coach Foge Fazio, asked about a Playboy magazine prediction that Pitt would end up 4-7 this season, replied: "I've switched my subscription to Penthouse." (Jim O'Brien, *Pittsburgh assistant AD for public relations*)

## "Ringitis"

Texas Christian coach Jim Wacker wears two NCAA Division II national-championship rings, one on each hand (both won at Southwest Texas State). At a recent practice, offensive guard Tommy Shehan was having a bad day; when he jumped offside one more time, it was too much for Wacker. He rapped Shehan on the helmet. Recalls Shehan: "When one of those big old rings hits those helmets, it's an incredible sound. It's about like wearing a pail on your head and having someone hit you with a baseball bat. It doesn't hurt you or anything, but it rings like something you've never heard. We call it 'ringitis.'" It was effective, though, because Shehan says, "I haven't jumped offside again. Coach Wacker is very fair, though. When you do something good, he comes up and slaps you on the rear and says you did good. That's something you really appreciate out of a coach." (Charlie Dierker, *Texas Christian associate SID*)

## Nation's oldest coach?

Receivers coach Ralph McKinzie was 89 years old October 1—a week before Eureka's homecoming. Is he the oldest active coach in the country? McKinzie, by the way, was President Ronald Reagan's college coach at Eureka. (Warner McCollum, *Eureka head football coach*)

## I-AA attendance up; I-A down

Attendance in Division I-AA finally caught and passed the 1982 pace last Saturday, as the season figure reached 11,452, or 28 per game more than at this stage a year ago for the same 84 teams. That's an increase of 0.25 percent. In I-A, however, the average lost ground, falling to 1.56 percent behind the 1982 pace in per-game average:

	Games	Attendance	Per-game	Percent Capacity
Division I-A season figures to date	325	13,694,344	42,136	80.0
Same 105 teams at this stage in 1982	336	14,381,655	42,803	80.8
Division I-AA season figures to date	248	2,840,029	11,452	55.8
Same 84 teams at this stage in 1982	251	2,867,458	11,424	55.7

## Youthful Nebraska team to receive stiff challenge

By Timothy J. Lilley  
The NCAA News Staff

Musical chairs, once a popular game, may become a hit in Division I men's gymnastics this season. Traditional powers again will be strong, but the seat of dominance may be up for grabs by April, when the NCAA championships are contested at UCLA.

Nebraska's hold on the top spot compares favorably with another Cornhusker team. And like their gridiron counterparts, the gymnasts of coach Francis Allen have had only one unanswered question—the final margin of victory.

Not so this season, however. UCLA may make a move for the top, and Penn State also must be considered a power. Big Ten rivals Illinois and Ohio State might be in the running, along with Northern Illinois and Southern Illinois.

Nebraska will rely on a "fearsome foursome" of sorts, as Allen prepares for an unprecedented sixth straight Division I crown. Triple-winner Scott Johnson (floor exercise, parallel bars, horizontal bar) is gone, but Mike Bowers, Jim Mikus, Chris Riegel and Wes Suter should take up the slack. Add Brandon Hull, whose strongest events are vaulting and parallel bars, and the Cornhuskers have another strong unit.

Youth is the trademark of Nebraska this season, as Mikus is the only senior. Riegel finished among the leaders in four of seven events last year and tied Oklahoma's Mark Oates for the vaulting title.

Rehabilitation from wrist surgery may hamper Riegel, and his recovery could be a key if Nebraska is to retain its leader's role.

Highlighting the Nebraska schedule are triangular meets with Iowa State and Oklahoma, both Big Eight rivals and national contenders. Penn State, Ohio State and Michigan travel to Lincoln for a quadrangular meet and the Huskers hit the road for a dual meet at Southern Illinois and the UCLA Invitational.

Gymnastics fans should circle March 11 on their 1984 calendars. Less than a week before the Big Eight championships and a month before the NCAA finals, UCLA travels to Lincoln.

UCLA coach Art Shurlock would like nothing better than to unseat Nebraska, and that March 11 date likely will reveal that possibility.

The Bruins have experienced performers in every event. Their top contenders are seniors Mitch Gaylord, Tim Daggett and Mark Caso. Juniors Robbie Campbell and Chris Caso also will contribute, with the younger Caso among the top all-around performers.

The departed star is Peter Vidmar, winner of the last two Division I all-around titles. Gaylord is the leading contender for Vidmar's spot.

The Bruins have finished second to Nebraska the past two seasons, but the winds of change may boost the UCLA sails in 1984. The team has won four straight Pacific-10 Conference titles, has the experience of NCAA championships competition

and is hosting the Division I championships as a prelude to the 1984 Olympics in Los Angeles.

State College, Pennsylvania, is more than 3,000 miles from the Southern California sunshine, but Penn State coach Karl Schier knows his program is very close to the caliber of Nebraska's and UCLA's.

The Nittany Lions return seven lettermen from a team that finished 9-2 during the regular season and third in the Division I championships, only two-tenths of a point behind second-place UCLA.

Penn State's consistency is reflected in the team's third-place finish, while only three gymnasts were among the leaders in the individual competition. Tom Ladman tied UCLA's Vidmar for second place on the pommel horse, and Bill Stanley finished eighth. Kenn Viscardi was third on the still rings, and Terry Bartlett tied for sixth on parallel bars and finished sixth on the horizontal bar.

Bartlett, Stanley and Viscardi return and will be joined by junior Steve Friedman to form the Nittany Lions' nucleus. Bartlett is the squad's top all-around gymnast, while Viscardi excels on the rings. Stanley is the pommel-horse expert, having turned in a 9.90 four times last season.

Penn State's schedule includes an exhibition match with a team from Japan and dual meets with Ohio State and Northern Illinois.

Big Ten rivals Ohio State and Illinois will try to crack the top three this season. After tying for the con-

Nebraska's Chris Riegel

ference title, the Buckeyes edged the Illini at the nationals, finishing fifth. Both programs are touting their 1984 squads as among their strongest, but neither Ohio State coach Mike Willson nor Illinois coach Yoshi Hayasaki has an easy schedule.

Ohio State's squad is young, headed by juniors Jay Foster, Noah Riskin and David Moskovitz. Seniors Brian

Baley (pommel horse, still rings, parallel bars, floor exercise) and Joe Bowers (vault, horizontal bar) will add depth.

The Buckeye schedule includes Iowa State, Nebraska, Southern Illinois, Oklahoma and Indiana State.

Illinois gymnastics enthusiasts are singing the praises of "The Great See Youthful, page 9

## Utah remains team to beat in Division I women's race

Utah returns its entire 1983 national-championship team and must be considered the favorite in Division I women's gymnastics as the season begins.

Challengers likely will include top-10 finishers Cal State Fullerton, Alabama, UCLA, Ohio State and Nebraska.

Utah was a surprise winner last year. After winning the first NCAA title in 1981, head coach Greg Marsden lost several fine performers. Many observers had pinned the rebuilding-year label on the Utes.

A young Utah squad matured, and led by the performances of Sue Stednitz, Megan McCuniff-Marsden and Elaine Alfano, held off a strong bid by Arizona State to keep the title in Salt Lake City.

Unlike a year ago, rebuilding is not in the Utah picture. McCuniff-Marsden, the defending all-around champion, and Alfano, winner of the 1983 vault title, head a list of four all-America returnees. Joining them will be Linda Kardos, three-time all-America whose specialty is the uneven parallel bars, and sophomore Lisa Mitzel, fourth in the all-around competition last year.

Utah's schedule is one of the toughest in the nation. Home-and-home contests are scheduled with Arizona State, UCLA, Oregon State and Utah State. Also on the schedule are Penn State, Florida and Cal State Fullerton.

For the first time, Utah will not have a home-court crowd for the NCAA championships. UCLA is host for the 1984 finals, April 6-7.

The Bruins are a relatively young team, and they lost only Anne Kitabayashi. Head coach Jerry Tomlinson probably will rely on

senior Donna Kemp to lead a team composed largely of sophomores.

Kemp finished eighth in the all-around competition last season with a score of 36.6, but she has scored as high as 38.1—which would have won the Division I all-around title last season.

Tracy Curtis is the top young

performer. She scored 9.35 or higher at least once in every event last season. Other key UCLA performers are junior Janet Ferrari and sophomores Kris Montera and Kim Berry.

Freshman Trina Tinti should add strength to the Bruin lineup. She was a member of the gold-medal-winning U.S. team at the Pan American

Games in Caracas, Venezuela.

A short drive from Pauley Pavilion, site of the 1984 Division I championships, is the campus of Cal State Fullerton, a perennial power that has had one of the most consistent and successful programs in the past seven years.

Following are some of the accomplishments:

- The Titans have averaged six all-America awards a year since the program began in 1976.

- The Titans never have finished lower than third in the national championships.

- The Titans have more victories (105 dual and invitational, 303 total) than any other university in the country.

Cal State Fullerton head coach Lynn Rogers could have his strongest team ever. Roni Barrios, Kym Fischler and Tania Rogers had all-America performances last season, and Rogers was able to keep balance-beam champion Julie Goewey as an assistant coach. Barrios and Rogers gained additional experience this summer at the World University Games.

Callie Glanton and Tami Elliott are among the nation's top freshman prospects, adding even more strength to the Cal State Fullerton lineup.

While UCLA and Cal State Fullerton prepare for the regular season a short distance from the Pacific tides, the Crimson Tide of Alabama will be trying to match or improve last year's 14-1 record.

Head coach Sarah Patterson's team finished second in the Southeastern Conference and fourth at the NCAA national championships. Five gymnasts graduated, and Patterson calls her squad "younger, less experienced,

but more talented."

There are four reasons for Patterson's optimism: Maise Chillano, Julie Estin, Marcy Rapp and Cindy Wilson-Tuttle, freshmen who will provide depth this season.

"We should improve our fourth-place NCAA finish, and we hope to win the SEC title," Patterson said.

Ohio State won its first Big Ten Conference title last season. After defeating Minnesota for the Big Ten title, the Buckeyes captured the NCAA East regional.

The team's development into a national contender largely was due to the rapid adjustment of last year's recruiting class and the stellar performances of Tracy Rinker.

Rinker, a senior, became Ohio State's first all-America gymnast when she tied for second on the uneven bars. That feat followed her three-victory performance in the Big Ten meet.

Rinker is the only senior among the top returners. Sophomores and juniors dot the roster, and freshmen Patty Monahan and May Olsen have outstanding credentials.

Ohio State's schedule includes a triangular meet with Nebraska and West Virginia, dual meets with Southern Illinois and Arizona State, and the Big Ten opponents.

Former Georgia coach Rick Walton is Big Eight champion Nebraska's new head coach. He inherits the top four all-around performers from last season's 10th-place national finisher.

Senior Kim Grabowski won Big Eight titles in the all-around and vault competitions and is the team's best in almost every event. Joining Grabowski will be junior Terry Furman, sophomores Jodie Twoey See Utah, page 13

Utah's Megan McCuniff-Marsden, 1983 all-around champion

# East Stroudsburg is Division II favorite

East Stroudsburg, Pennsylvania, is a small town; it is so small that some road maps and highway atlases fail to list it. Division II gymnastics followers know all about it, though. Seven months ago, East Stroudsburg University coach Bruno Klaus took his team to the West Coast and brought home the school's first NCAA championship. The Warriors defeated three-time defending champion Wisconsin-Oshkosh by less than a point.

That victory capped years of steady improvement. East Stroudsburg finished fifth in the 1981 NCAA championships and improved to second in 1982.

The loss of only two members of the 1983 championship squad makes the Warriors a team to be reckoned with in the 1984 season.

East Stroudsburg competes in the Eastern Intercollegiate Gymnastics League. Top competition comes from intrastate rivals Slippery Rock and West Chester and Division I programs such as Army, Navy, Syracuse, Massachusetts and Temple.

Also on the regular-season schedule is another Division II contender, Springfield. Klaus knows his team will have to work to hold its top ranking.

The Warriors have Alan Emerick, winner of the horizontal bar last year, and three more all-America performers.

Jeff Clements tied for second in vaulting; one of the two gymnasts who shared that spot was teammate Devot Garrett. Felipe Sanchez was fifth on the parallel bars.

The 1984 East Stroudsburg team should be stronger than its predecessor, with freshmen John Riberio and Klever Rocha from Brazil. This duo will team with the returning all-Americans as replacements for Mike Romano and Polo Peraza.

Wisconsin-Oshkosh coach Ken Allen, returning from a sabbatical, will be out to regain the top spot. Allen has several top performers in the division, most notably seniors Dave Goode, Bruce Kettner, Scott Lindblad and Mike Krotchko.

Goode, Lindblad and Krotchko had five top-eight finishes in individual competition at last year's Division II championships.

Team experience, the return of Allen and the chance to recapture a

title could make for an interesting season for the Titans.

In the East, Springfield returns two national champions, including one of the best still-rings performers at any level. The Chiefs should have an advantage at the championships since Springfield will be host for the NCAA Division II championships for both men and women.

Senior Jeff Coelho has been the division's best on the still rings the past two seasons and has advanced to the finals of the Division I championships both years.

After winning the 1983 rings title and finishing second in the vault, Coelho finished fifth in Division I with a score of 9.55.

Joining him will be Bob Piehler, Division II titlist in floor exercise last season. Leo Doran is a solid all-around performer, and newcomers Eric Weiskopf, Brian Smith and Bill McKenna will contribute as freshmen.

Finishing just ahead of Springfield last season was Eastern Montana, with a score of 253.95. But head coach Jay Shaw must replace six seniors who graduated. Senior Allen Rohrback will provide the leadership.

At least 10 Division I teams appear on the Jacksonville State schedule, giving coach Tom Cockley one of the toughest slates in Division II.

Included on the schedule is Northern Illinois, one of the top Division I finishers a year ago, along with Georgia, Air Force, Navy and North Carolina State.

Cockley's squad returns intact and will get added strength from the return of Kenny Moore, a redshirt freshman who missed last season because of knee surgery.

Jacksonville State finished sixth in the 1983 championships, and Lee Hair won the vault title with a 9.70.

Cortland State also appears ready to flex its muscles. Returning talent includes Roger Burke, runner-up on the horizontal bar a year ago, and Ron Lievendag, who took third place in the all-around competition. Lenny Franco was a finalist in the floor exercise last season, and sophomore Adam Evans could become one of the division's best in the vault.

The Division II championship is one of 10 common-site events on the 1983-84 NCAA championships calendar.

Springfield's Jeff Coelho, two-time defending champion on still rings in Division II

## Division II women

# Denver's move jumbles picture

Division II women's gymnastics will be without its 1983 champion this season. The University of Denver will compete in Division I, and the Pioneer Women will face Oklahoma, Nebraska, New Hampshire and several other strong programs.

Any one of a number of teams could move into the top position in Division II. Among them are Cal State Northridge, winner of the 1982 championship; Southeast Missouri State, a young squad with potential; West Chester, which had an undefeated regular season, and Jacksonville State, which has experience and seven talented freshmen.

Connecticut, Seattle Pacific and San Francisco State also are contenders. All made the NCAA championships a year ago.

Two of the top eight teams of 1983 will have new head coaches this season, which makes predictions more difficult.

However, one team sure to be a challenger is Cal State Northridge with new head coach Susan Rouse. The Matadors lost the title to Denver by less than a point.

Rouse's squad has three performers from the 1983 runner-up team. Caroline Balet, Stacy Baker and Laura Ross will lead a rebuilding effort.

Cal State Northridge lost three all-America performers, but freshman Janine Elliott might help fill some of the void.

Things have never looked brighter at Southeast Missouri State. Head coach Bill Hopkins has averaged 25 victories with only seven losses in his four years at Cape Girardeau, and his Othakians came within four points of the national championship last season.

Every one of the team's top 1983 scorers is back, and five outstanding freshmen have been recruited.

Sophomores Sandra Foster and Debbie Holtgreve will lead the Othakians this season. Holtgreve earned all-America honors last season with a tie for fourth place in the balance beam. Teammate Laurie Schoenbaum, a junior, finished eighth in floor exercise to earn all-America recognition.

Juniors Vici Strini and Margaret Heidbrier give coach Hopkins added depth.

Ohio State, Kentucky and Iowa State will give the Othakians more than ample testing in the regular season.

West Chester's Sandy Thielz has lost only 31 matches in 10 years as head coach. Last season, the Rams won all 14 regular-season contests and took the title in the Pennsylvania Association for Intercollegiate Athletics for Women.

Although four seniors have departed, Thielz believes West Chester's best gymnast will be back this season.

Lauretta Thomas is a sophomore, and she finished among the top 15 in the all-around competition at the 1983 championships. Thomas will be joined on the squad by Mary Jo Mahoney, Beth Harrington, Barbara Reilly and Susy Breshahan.

West Chester's schedule is challenging with opponents like Maryland, Navy, Temple and Rutgers. Thielz's squad will be tested soon enough.

Jacksonville State's program is progressing. The women's team finished fifth at the Division II championships, and seven freshmen have been recruited by head coach Robert Dillard. They join an experienced group of returning performers. Seniors Marilyn Hanssler and Lisa Palk will be the top all-around performers for the Lady Gamecocks.

With Denver's Karen Beer now in Division I, Hanssler should be considered the top balance-beam performer in the division after a second-place finish at last year's nationals.

Other Jacksonville State standouts include juniors Patricia Claridy and

Denise Walker and sophomore Lisa Ernst. These women face a schedule loaded with Division I competition.

Memphis State, Georgia, Auburn, Kentucky and Alabama all will test the Lady Gamecocks.

Juniors dominate the squad at Connecticut, where the dynamic duo of Chris Morrissey and Maureen Russo return. Both earned all-America status last season: Morrissey in the vault and Russo on the balance beam.

The squad's depth is evidenced by the fact that sophomore Judy McCurry has scored higher on the balance beam than Russo.

Sophomore Gail Flinn returns from an injury, and four freshmen will add more talent to an impressive lineup for coach Geri Henley.

"We should be every bit as good as last year," said Henley, "and this season, we'll have more depth."

Depth also will be an advantage for Seattle Pacific coach Laurel Anderson Tindall. Seven veterans return, and six freshmen have been recruited.

The Olsen sisters, senior Linda and sophomore Alayne, along with senior Fernell Collins, provide a lot of potential for the Falcons.

Seattle Pacific will get an early chance to showcase its talents December 3 at the Cal State Northridge Invitational.

Slippery Rock finished second in the East regional a year ago. First-year coach Lynn Spadine has a young team, but senior Carol Gray and junior Julie Morrow have performed at the Division II championships.

Division I programs West Virginia and Pittsburgh will provide some tough opposition for the Rockets.

Air Force was flying high last season, finishing second in the Central regional. Although not very deep, the squad has fine returning veterans with senior Ellen Nelson and juniors Marci McGlinn and Cynthia Tallmadge. A trip to the championships is not out of the question.

Other programs with potential include Southwest Texas State, a squad loaded with returning talent that had a good recruiting year.

Ithaca is much younger but quite talented. Head coach Jacqueline DeSalvo's strengths are in the vault and floor exercise.

Wisconsin-Oshkosh returns six veterans, and head coach Phyllis Hardt has added four promising freshmen. The Titans have a goal of making the Division II championships, a trip that has become a regular event for the men's team.

## Youthful

Continued from page 8

Lakes," a nickname given sophomore all-arounder Charles Lakes. In his freshman season, Lakes helped the Illini to a 9-2 record, the co-championship of the Big Ten and a sixth-place finish at the Division I championships.

Lakes has scored 56.65 in all-around competition and shows an individual-event high of 9.9 on the horizontal bar. Kari Samsten is the lone senior at Illinois, so another young team appears poised to strike in 1984.

The Illinois schedule is tough. Iowa, Indiana State, Northern Illinois, Southern Illinois and other Big Ten opponents stand between the Illini and the nationals.

Northern Illinois coach Chuck Ehrlich is pleased that 1982 Division I pommel-horse champ Doug Kieso is back. Kieso's 9.95 in the Division I finals set a school record and was more than two-tenths higher than his 9.73 average on the horse last season.

All-around ace Tom Kennedy has departed, and 1984 may be a rebuilding year for Northern Illinois. With returners like Kieso and top 10 finishes the past two seasons, it is apparent the reconstruction may be completed for the championships

next spring.

Southern Illinois made the 1983 NCAA championships for the first time in five seasons, but the squad has lost all-America performers Brian Babcock and Tom Sloski.

Nonetheless, head coach Bill Meade has more depth in 1984 with all-arounders John Levy, Kevin Mazcik, Murph Melton and Brendan Prince, along with talented newcomers.

Most of the top teams appear on the Salukis' schedule, so Meade will get an indication of his team's post-season chances by the end of February.

## Regional roundup

**East:** Navy may be a challenger for a top 10 spot. The Midshipmen finished 11-1 a year ago, the best record in the school's history. Late-season injuries might have kept Syracuse from a strong finish in 1983. Senior Mike Calcutti already holds the school all-around record at 54.40. Junior Seth Levy of Dartmouth also set a school record in all-around competition with a 50.6 a year ago.

**South:** Houston Baptist's young squad will be led by John Sweeney, an all-America performer on both parallel bars and floor exercise in

1983. . . . Another NCAA qualifier returning is Georgia Tech's David Titshaw, who earned a trip to Lincoln last year for the Division I championships on the horizontal bar.

**Central:** Oklahoma could break into the top five this season. The Sooners finished eighth a year ago and return the nucleus of that squad. . . . Iowa coach Tom Dunn boasts a senior-dominated lineup that could boost the Hawkeyes high enough to earn a trip to UCLA. The team finished 11-4 a year ago. . . . Michigan State will host the Big Ten championships for the first time since 1968. The Spartans will be led by senior Bruce Trvor, who qualified for the NCAA championships on the pommel horse a year ago.

**West:** Air Force finished 10-1 last season and returns eight lettermen. . . . Cal State Fullerton won the PCAA title and sent four gymnasts to the Division I championships. . . . San Jose State finished second to Cal State Fullerton in the PCAA race, and senior Roy Palassou was an all-America on the pommel horse. . . . New Mexico won the Western Athletic Conference last season and came close to NCAA qualification. With all-America Matt Arnot, the Lobos may make it to UCLA in 1984.

# West Virginia shooters aim for second title

West Virginia University's athletics program has a reputation for quality and balance. Its football, basketball, swimming and gymnastics teams have earned nationwide acclaim.

One of the smaller programs, while less publicized, has been no less successful. In fact, the Mountaineers' rifle team has been consistently more successful than any other WVU teams.

Mountaineer marksmen, the defending NCAA champions, own the best winning percentage of any team at the university since the sport's inception in 1951. More than 40 all-America selections have been WVU shooters. Coach Edward F. Etzel's biggest problem this season may be in choosing his best four-man lineup.

Last March, Bob Broughton, Dave Ridenour, Bart McNealy and Dave Johnson teamed to defeat perennial rivals Tennessee Tech and East Tennessee State in the national championships at Xavier University. A freshman, Johnson captured the smallbore individual title. Ray Slonena of Tennessee Tech spoiled a West Virginia sweep by capturing the individual air rifle title.

For the first time in four years, Tennessee Tech was not the national team champion, and a Tennessee Tech marksman did not win the smallbore title. The Golden Eagles traditionally have been more successful against West Virginia in post-season action than in regular-season, shoulder-to-shoulder confrontations.

With a score to settle in 1984, Tennessee Tech also has a wealth of

Edward F. Etzel

Dave Johnson

returning talent and the ability to recapture the title it held for the first three years of NCAA competition.

East Tennessee State always is a national contender, and this season will be no exception. Other teams expected to develop include 1984 championships host Murray State, Eastern Kentucky, Navy, Army and Eastern Washington. The championships are scheduled March 16-17.

West Virginia's Etzel enjoyed national-champion status as a student-athlete at Tennessee Tech. Now, as head coach, Etzel has recruited well and may be able to hold off a very strong field.

The key to WVU's success is Johnson, who dazzled the collegiate shooting world a year ago. After walking away with the individual smallbore title, Johnson fired scores of 1,179 in smallbore and 388 in air rifle to lead his team to the title.

During the air rifle portion of the team event, Johnson fired a perfect target: 10 center-shot bull's-eyes standing at a distance of 10 meters.

With Broughton, Ridenour and McNealy, Etzel has some of the top shooters in collegiate ranks.

But he also has two outstanding freshmen: Mike Anti of Jacksonville, North Carolina, and Roger Davidson

of Rawlins, Wyoming. Regular-season tournaments and shoulder-to-shoulder showdowns with Tennessee Tech and East Tennessee State will give Etzel opportunity to fine-tune what already is a top-performance squad.

Tennessee Tech coach Jim Newkirk had a new experience in 1983: a season of NCAA competition without a Fitz-Randolph on the roster. Brothers Kurt and Rod Fitz-Randolph sparked the Golden Eagles' domination of NCAA shooting since the championships began in 1980. Between the two, they own half of the individual titles contested during that period.

Newkirk has to be pleased that his top performers are back. Ray Slonena is a senior, out to defend his 1983 air rifle title, and Tony Leone is a sophomore.

Sophomore Jess Johnston and junior Mike Munn likely will join Slonena and Leone as the Golden Eagles' No. 1 team. Ron Zerr, a junior who sat out last season, may challenge for a top spot.

"The competition on this team is very keen," Newkirk said. "They're more enthused this year than they were last year."

East Tennessee State will be in an unusual situation as the season progresses. Head coach Ray P. Carter, a member of the NCAA Men's and Women's Rifle Committee, will be leaving in mid-December, to be replaced by Paul Anderson.

The transition should be easy. The Buccaneers return many top performers. Seniors Joe McGuigan and Elizabeth McKay, along with juniors Bill Thomas and Kurt Kisch and sophomores Laura O'Daly and David Yeager, form the nucleus of the squad.

East Tennessee State should have little trouble in capturing its sixth Southern Conference title.

While these three teams have controlled intercollegiate shooting for several years, other programs are starting to be heard from.

Murray State, while finishing fourth in the overall standings a year ago, topped third-place East Tennessee State's score in the smallbore competition.

Being host to the national championships will be a boost for head coach Elvis Green and the Racers, as will addition of freshman Pat Spurgin, who likely will become a member of Murray State's top team this season.

this season.

Freshman Randy Horton is another newcomer to watch. He will team with Spurgin, sophomore Mike Rabenstein and senior Kerry Spurgin. That team has the potential to become a national contender.

Eastern Kentucky could challenge the nation's best this season. The Colonels won the Ohio Valley Conference championship last season and finished sixth at the national championships.

Head coach Michael McNamara has Mike and Mark Bender, Ana Hogrefe, Terry Sievert and Pam Floer for experience and depth.

Although Navy qualified only for the smallbore portion of the team competition at Xavier last March, head coach Web Wright had to be pleased with his team's performance.

The Midshipmen turned in a respectable 4,541, and Michael Salach tied for sixth with West Virginia's Johnson in the individual air-rifle competition.

Salach is back and will lead Navy's efforts. He will be joined by sophomore Bob Coffel, juniors Wade Burchell and Larry Lasseter, and senior Anthony Alabata.

Eastern Washington was somewhat of a surprise in qualifying for the 1983 team championships and finishing seventh with 5,976 points.

Launi Meili, who finished sixth in the individual smallbore competition, is back this season. The Eagles again are national championship contenders.

MIT won the New England Rifle League championships last season, although Clifford Eskey was the only marksman to qualify for the national championships. Eskey, who finished 11th in the smallbore competition, should improve this season.

**Other shooters to watch:** Eric Morrison, William and Mary; Jim Bierstine, Air Force; Joella Ross and Tom Koontz, Tennessee; Martin; Leo Sokoloski, King's; Ivar Halvarson, Alaska-Fairbanks; Juan Hernandez, South Florida; Zolt Szentkiralyi, John Carroll; Chris Lair, Western Kentucky; Ross Morgan, Arkansas State; Alan Wilcoxon and Keith Walker, St. John's (New York); Bryan Cargould, Akron; Lorie Monck, Lake Superior State; Heather Gallo, Texas Christian.

**Preseason notes:** Carter's departure at Tennessee Tech created two openings on the NCAA Men's and Women's Rifle Committee. Etzel of West Virginia, already a member of the committee, has been named Carter's replacement as secretary-rules editor, and Wright of Navy has been named to take Carter's place as a member of the committee. . . . Rifle is the only NCAA sport in which men and women compete shoulder-to-shoulder, against each other, for the same championship.

## Rifle competitors receive training from various junior programs

By Timothy J. Lilley  
The NCAA News Staff

Playground basketball sometimes can lead to athletic grants and all-America recognition. Predawn runs across the countryside sometimes lead to the development of top distance runners.

But soda cans at 20 yards with dad's old BB gun is not enough for shooters to make it in the collegiate ranks. Training and development begin as early for them as for other NCAA student-athletes, and the structure for progressive improvement in shooting is in place.

"Thousands of junior programs all over the country are the primary development grounds," said Edward F. Etzel, head coach at West Virginia University and a world-class marksman. "Some young people start in competitive shooting as early as age 8 or 9."

The National Rifle Association, governing body for shooting in the

United States, has three classes of junior competition. The sub-junior program provides competition for shooters until December 31 of the calendar year of their 14th birthday.

Intermediate-juniors compete until December 31 of the calendar year that includes their 17th birthday, and juniors shoot in that class until the end of the calendar year that includes their 20th birthday.

Many Boy Scout Explorers and 4-H programs offer shooting programs, and many military installations have shooting clubs associated with their activities programs.

The Washington, D.C., area boasts of interscholastic rifle competition at the high school level, and the Western Pennsylvania Interscholastic Athletic League (WPIAL) offers a rifle championship for its member high schools.

Recruiting hotbeds for prospective collegiate talents include the metropolitan Washington, D.C., and Pittsburgh areas, as well as Chicago,

Southern Connecticut, Florida and Montana.

Once in college and competing in NCAA action, marksmen have ample opportunity to keep in shape during the "off-season."

"Actually, the summer is just about the most active period of the year," said Etzel.

The most proficient shooters participate in tryouts for the United States shooting team. They have been held in Phoenix annually. Those selected to the national training team represent the United States in various international competitions for that year.

Members of the national-training team recently competed in the Pan American Games in Caracas, Venezuela. The 1984 team also will be the U.S. Olympic squad, and several collegians likely will be on that squad's roster.

Current national-training team members include David Johnson and Mike Anti of West Virginia (WVU coach Etzel also is a member), Tony Leone of Tennessee Tech and Pat Spurgin of Murray State.

A different but equally important squad is the national-development team; think of it as the United States "junior varsity."

"Although a shooter at any age-group level can become a member of the national-training team if he or she is good enough, the development team generally is reserved for younger shooters," Etzel explained.

Members of the development squad include Jesse Johnston and Jan Schuler of Tennessee Tech; David Yeager and Elizabeth McKay of East Tennessee State; Dave Ridenour and Bart McNealy of West Virginia; Launi Meili of Eastern Washington, and Dave Passmore of Eastern Kentucky.

## Rifle sponsorship jumps

Sponsorship of men's and women's rifle by NCAA member institutions has grown considerably since Tennessee Tech won the first National Collegiate Championship during the 1979-80 academic year.

Fifty institutions sponsored the sport that season, and two more sponsored the sport in the 1980-81 academic year. The third edition of the individual/team championships took place with 49 institutions sponsoring rifle.

Last season, sponsorship almost doubled. From the 49 of 1981-82, rifle sponsorship jumped to 92 institutions. The current list, recently updated with the start of the new academic year, shows 90 NCAA member institutions offering rifle as a varsity intercollegiate sport.

One reason for the dramatic increase was the change in Division I membership criteria that required institutions to sponsor eight varsity sports. The previous requirement was six.

Many of those colleges and universities already had rifle teams. Almost without exception, rifle programs have been started as a part of a military science or ROTC program. Perennial powers West Virginia, Tennessee Tech and East Tennessee State represent ROTC-initiated programs.

### TOUCHDOWN!

#### QVP'S "Cablesports Update '83"

Six chapters: economics of college sports, professional sports, regional sports networks, cablesports and the arena; cablesports and the law; summary and conclusions, 1983-88. Plus profiles of 14 cablesports companies.

Institutional price: \$150 Corporate price: \$295

### EXTRA POINTS!

QVP will hold its second annual  
NCAA Cablesports Seminar  
Saturday, January 7, 1984  
Dallas, Texas

- Addressability and pay-per-view: impact on collegiate sports.
- College conferences/individual schools discuss cablesports/over the air contracts.
- 1983 College TV package retrospective.
- Regional/national services look at collegiate sports.
- MSOs look at collegiate sports.

Price: \$180 until December 15, \$195 thereafter.

If you buy the update and register for the seminar and enclose this ad, you qualify for a 10% discount.

QV Publishing, Inc. 250 E. Hartsdale Ave., Hartsdale, NY 10530  
(914) 472-7060

# CCWAA provides forum for women leaders

NCAA legislation, promotional activities, championships policies and seeding, and ways to improve officiating were among the topics discussed at the October 10-11 meeting of the Council of Collegiate Women Athletic Administrators in Kansas City, Missouri.

The CCWAA is an organization of approximately 150 women athletics administrators whose purposes are to provide a forum for women athletics administrators, to develop and maintain communication channels, to provide leadership opportunities for women, and to analyze and evaluate proposed NCAA legislation.

The session on proposed legislation for the 1984 NCAA Convention was led by Phyllis J. Bailey, women's director of athletics at Ohio State University. Janice I. Bump, legislative assistant on the NCAA legislative services staff, presented the proposed legislation affecting women that the NCAA Council and member institutions are sponsoring for the 1984 Convention.

At the current time, the CCWAA only analyzes and evaluates proposed legislation, although the organization decided to study the possibility of developing and proposing legislation. Before its meeting next year, the CCWAA will examine the possibility of working with the NCAA Council in proposing its own legislation.

"We would like to give input rather than reacting to legislation after it has been proposed," said Kay Don, assistant athletics director for women at Texas A&M University and CCWAA president. "However, we want to work through the proper channels. Proposals will be developed between now and our next meeting, and a recommendation will be brought at that time."

Della Durant, assistant director of athletics at Pennsylvania State University, was the moderator for the discussion on promotional activities for women's sports. Cheryl L. Levick, assistant director of communications at the NCAA, discussed the promotional efforts being undertaken

this year.

Leading the discussion on NCAA championships policies and seeding was Barbara B. Hollmann, associate director of athletics at the University of Montana. Patricia E. Bork, director of women's championships at the NCAA, outlined the relationship between NCAA sports committees, the Executive Committee and the Special Committee on Championships Standards, and reviewed championships policies affecting women's events.

Another agenda item was a discussion on officiating led by Tom Slaymaker, United States Volleyball Association; Carol Thompson, National Association for Girls and Women in Sport, and Patricia Viverito, commissioner of the Gateway Collegiate Athletic Conference.

Thompson informed the group that \$127,000 will be spent by NAGWS in 1983-84 for training programs for officials. Viverito offered several suggestions regarding officiating, including the following:

- Institutions should set standards for officiating and be willing to budget accordingly.

- Conferences need to take a leadership role by assuming responsibility for assigning officials, developing policies to reduce inconsistencies in officiating and using officiating partners when possible.

- Feeder programs should be established for new officials to gain experience.

- The various officiating groups should work together to educate the general public, produce instructional films, maintain recruitment programs, address the image problem and establish policies for objectively assigning officials for championship competition.

"I thought the meeting was very good, and I was pleased with the turnout," said Don. "We are hoping to continue working to bring everybody together. We've had splits in the past, but we've got to put our differences behind us for the betterment of women's athletics. Everyone feels like we are beginning to come back together and reopen communication lines. The Kansas City meeting was also beneficial because we got to

meet seven NCAA women staff members."

During a "speak out" session, three topics were discussed: conference structure, advancement of women in administrative areas and harmful influences of drugs on women student-athletes.

Margaret Preska, president of Mankato State University, was the keynote speaker. She spoke on her views of women's athletics from the perspective of a college president and how women's athletics fits into the total university academic picture.

Besides Don, Durant (treasurer) and Hollmann (secretary), other CCWAA officers in attendance were Bailey; June Davis, University of Nebraska, Lincoln; Phyllis L. Howlett, Big Ten Conference; Mona Plummer, Arizona State University; Mary Roby, University of Arizona; Carol Huston, Bowling Green State University, and Jane Betts, Massachusetts Institute of Technology.

"The meeting had a very positive tone," Don said. "The women are wanting to be a part of the development of women's programs in the NCAA, and we want to do it in the right way."

## Governance

*Continued from page 1*

ventions and the ability of authorized delegates to represent their own institutions and conceptually indicated a plan of legislative confrontation—the decision of a presidential board versus the individual votes of member institutions.

In response, Davis said that the governance review committee "will seek a broad package of related governance issues, including some of the recommendations of the select committee and the Division I criteria committee, because we believe there are related recommendations that will provide a greater opportunity for meaningful involvement of CEOs in athletic matters. "We are working on a cohesive, cooperative plan, rather than the divisive, confrontational approach being advanced by the ACE committee."

Davis emphasized that the eventual plan proposed by the NCAA com-

mittee would be based on the seven principles it had developed earlier (September 26, 1983, issue of The News) to apply to various options for assuring greater CEO involvement in the NCAA.

The NCAA Council voted unanimously October 12 to approve those seven principles and said they should be used as guidelines in developing legislation relating to governance issues. The principles:

1. The chief executive's ultimate responsibility for institutional control of athletics should be affirmed and enhanced by building on the CEO's current responsibilities in key NCAA decision-making circumstances. For example, the CEO now approves NCAA football television plans, appoints the institution's Convention delegates and certifies the institution's compliance with national regulations.

2. The new, partially federated NCAA structure and procedures

should be cornerstones of the contemplated CEO structure. Athletic conference organizations and membership divisions also should be reflected in the contemplated CEO structure.

3. The fundamental, democratic principle that each institution is entitled to vote directly on each issue affecting it must be maintained, with the present two-thirds majority rule pertaining to constitutional changes and the majority requirement for bylaws and resolutions continuing.

4. Member institutions should continue to control directly, through Convention action, all activities of the NCAA.

5. The knowledge of experienced and competent practitioners in intercollegiate athletics—the faculty athletic representatives, athletics administrators and coaches must not be ignored in the development of athletics policies and regulations if such requirements are to be effective.

6. Means should be developed to assist CEOs in maintaining institutional control of athletics, at three levels: First, by recognizing the chief executive who effectively maintains institutional control in the current structure; second, by supporting the CEO who is adversely affected by local pressures in attempting to maintain institutional control, and third, by providing effective presidential influence on the chief executive who chooses not to involve himself or herself in meaningful supervision of the intercollegiate athletics programs.

7. Current NCAA rules and procedures provide necessary controls on institutional ambitions and outside pressures. Any alterations in the present structure should be designed to strengthen that control and the accompanying inspection procedures, particularly at a time of increased reward for success in athletics.

Davis termed items 3 and 4 as "critical" in evaluating the ACE committee's proposal.

"No institution should have its vote diminished or devalued, and that is the point of these principles," NCAA President John L. Toner told the Council. "A committee decision that could set aside or replace a Convention action devalues an institution's vote, and the concept of requiring a two-thirds vote to override such a committee action involving a bylaw in effect negates institutions' votes because bylaws now require a majority vote of member institutions."

Davis said his special committee would conduct a telephone conference later this month to determine its recommendations to the Council. It then will meet October 31 to complete the proposals it will submit to the Council the following day.

## Football TV ratings off last year's pace

Television ratings through the first five weeks of the 1983 college football season are down slightly in comparison to ratings for the same period last season. However, an increase during week No. 5 may indicate a reversal of that trend.

This season marks the second year of the 1982-1985 NCAA Football Television Plan, which features coverage by both ABC-TV and CBS-TV. Live college football also is cablecast by Turner Broadcasting System, Inc., which is in its final year of a two-year contract to carry the plan's supplemental series. TBS games were not rated last year.

The highest-rated network game to date this fall was the September 3 match-up between UCLA and Georgia, which drew a 10.2 rating. Two early season games in 1982—

Georgia-Clemson and Pittsburgh-North Carolina—received 15.1 and 13.3 ratings, respectively.

Ratings continued slightly behind last year's pace until the weekend of October 1, when four ABC regionals received an 8.2 rating (7.6 for the same weekend in 1982) and five CBS regionals drew a 9.0 rating (7.1 in 1982).

Following are the ratings for the first five weeks of the season compared with ratings for the same weekends last year. The rating (R) indicates the percentage of the total number of television homes in the nation that were tuned in to the game. The share (S) indicates the percentage of the total number of sets in use that were tuned in to the game. TBS ratings are based on a universe of 27,654,000 homes.

Date	Game (Network)	1982 R/S	1983 R/S
Aug. 29	Nebraska-Penn State (Katz, national)	—	9.7/18
Sept. 3	UCLA-Georgia (ABC, national)	15.1/28	10.2/22
		13.3/25	
Sept. 10	Regionals (ABC, four)	9.2/25	8.8/24
	East Carolina-N.C. State (TBS, national)	—	5.3/9
Sept. 17	Ohio State-Oklahoma (ABC, national)	13.3/26	9.5/25
	Regionals (CBS, four)	8.2/26	8.1/24
	West Virginia-Maryland (TBS, national)	—	3.9/7
Sept. 24	Regionals (ABC, five)	*8.6/28	7.1/25
	Regionals (CBS, four)	—	9.1/25
	Notre Dame-Miami, Fla. (CBS, national)	11.1/29	10.1/20
	Arkansas St.-NE Louisiana (TBS, national)	—	3.3/5
Oct. 1	Regionals (ABC, four)	7.6/27	8.2/22
	Regionals (CBS, five)	7.1/21	9.0/28
	Vanderbilt-Tulane (TBS, national)	—	3.6/6

\*National telecast

(Note: Nebraska-Penn State telecast not part of the 1982-1985 NCAA Football Television Plan.)

## Interpretations

**EDITOR'S NOTE:** Publication of an interpretation in this column constitutes official notice to the membership. Questions concerning these or other O.I.s should be directed to Stephen R. Morgan, director of legislative services, at the Association's national office (P.O. Box 1906, Mission, Kansas 66201; 913/384-3220).

### Local sports club

(Revises Case No. 203)

**Situation:** A member institution's coach in a sport serves as a coach in the same sport for a local club located in the institution's home community. (88)

**Question:** Is it permissible for prospective student-athletes living in the same community, or in the area within a 30-mile radius of the institution's main campus, to participate for the club without violating the NCAA tryout rule?

**Answer:** Yes. Such prospective student-athletes may participate for the club; however, a prospective student-athlete who is not a legal resident of the area involved may not participate for the club. Further, it is not permissible for the institution's coach to assign an ineligible prospect to another one of the club's coaches. [B 1-6]

### College—high school contests

(Revises Case No. 234)

**Situation:** A member institution desires a regularly scheduled high school contest to be conducted in conjunction with one of its intercollegiate contests. (301)

**Question:** Is it permissible for the institution to permit the contest to be conducted as described?

**Answer:** No. [B 1-1-(a) and B 1-6-(c)-(2)]

### Complimentary tickets

**Situation:** Effective August 1, 1983, complimentary tickets shall be distributed only to persons designated by the student-athlete and who have identified themselves and signed a receipt therefor. (604)

**Question:** What procedures have been officially approved to govern the administration of this legislation?

**Answer:** The Council has approved the following procedures to be utilized in implementing legislation governing the issuance of complimentary tickets:

- (1) Individuals designated by the student-athlete to receive the complimentary tickets shall be provided the tickets on a single-game (not full-season) basis;
- (2) not more than 10 days prior to the game, the complimentary tickets may be mailed to the recipient or accepted in person by the designated recipient, with appropriate identification, and (3) the same individual may not be designated by more than one student-athlete to receive complimentary tickets for any given game. [C 3-1-(g)-(3)]

## News binders available

Readers of The NCAA News now can secure an attractive, permanent binder for their copies of the publication.

These sturdy, attractive vinyl binders are available for purchase from the NCAA publishing department. Each binder sells for \$7.50, or \$14 for two, including shipping costs, and holds 23 issues of the News—a half-year's reading.

The binders include individual wires to keep each issue in place. A pocket on the spine can be used to note the dates of the issues contained in each binder, and The NCAA News logo appears both on the front cover and on the spine for easy identification.

To obtain the binders, send the order form below to NCAA Publishing, P.O. Box 1906, Mission, Kansas 66201.

# Theories work for North Central's Carius

By Wallace I. Renfro  
The NCAA News Staff

Every day, when the cross country team walks into the locker room at North Central College, the runners stand and study about a dozen color prints of grassy meadows, rolling hills and wooded ravines. Then, they join coach Al Carius for a run around the town of Naperville, Illinois.

The photographs could be of pastoral scenes around Naperville, a quiet community of 40,000 located 30 miles west of Chicago. But they are not. They are photos of the course on which the Division III Men's Cross Country Championships will be run in November at Newport News, Virginia.

Since 1978, Carius has been packing up his team before the season starts and traveling to the site of the championships. Since 1978, the Cardinals have won the team title four times.

"I don't think it (the trip) means much," says Carius. "The important thing is that the team gets together as a group. We spend a few days together and have fun. We can't afford to go to a training camp, so we go there. It's a social thing as much as anything else."

Carius has kept the annual trip quiet and would prefer that it stays that way. Whatever psychological edge the trip provides, Carius would prefer to keep it for the Cardinals.

North Central has won eight championships in the 10-year history of the meet.

Carius is a man full of theories. There is the "emotional-container" theory, the "four-good-races" theory, the "run-for-fun" theory, the "freedom-to-fail" theory; and somehow, they all go together.

"Cross country is an emotional sport—a motivation sport," Carius says. "A distance runner is an emotional container, and he has to keep the container filled."

"When you get in a race, you have to hold yourself together for an extended distance. This can be emotionally draining; and when an athlete drains the container, the season is over for that athlete."

"That is why I believe a distance runner has only about four good races in him each fall. What we try to do is pick the four meets where we are going to give everything we have."

It's not difficult to guess that one of those meets is the NCAA championships. The other three are scattered throughout the season, and the balance of the season is run without the pressure of winning.

"But don't get the idea that Carius isn't a competitor," says Marv Meinz, the sports information director at North Central. "He is fiercely competitive, but he believes running should be fun, even for competitive athletes."

The 41-year-old Illinois native was captain of the cross country and track teams during his junior and senior years at the University of Illinois. He won the Big Ten cross country title both years, the indoor two-mile both years and the outdoor two-mile once.

He stayed at Illinois to get his master's degree and then accepted the head coaching job at North Central, where he is in his 18th year.

In 1971, he also was named athletics director. After six years, he gave up the position because, he says, he "got selfish" and wanted to give more time to coaching. In 1980, he was named AD again.

"I think I've learned to wear both hats," Carius says. "But at 3 p.m., I'm a coach."

When he was at Illinois, Carius says he sometimes wondered if he

was running only because he had a scholarship and it was helping pay for his education. After he graduated, he discovered he had been running for the fun of it.

"That is the same type of athlete I look for, one that loves to run for the satisfaction of improving."

"You know, success is a relative thing. I never ran a sub-four-minute mile, but I remember what a tremendous thrill it was when I broke 4:30 the first time, then 4:20, then 4:12. That is satisfaction, and I want athletes who feel that way about running."

Division III coaches say Carius' secret is that he is a great motivator and a great recruiter. He disputes the latter.

He points out that he has never recruited a sub-4:20-minute runner and can go down the list of 28 all-Americans he has produced and describe how unimpressive they were in high school.

"There are three ingredients in the makeup of a good distance runner—ability to run, motivation and confidence. The least important of these is the ability to run," he says.

"It is easier for a distance runner to overcome a lack of natural ability

than it is for a sprinter, or for a basketball player or for an infielder."

"We get good high school runners but no superstars. If a kid really likes to run—and I think I can hear that when I talk to one—that kid wants to improve. That is what I'm looking for."

Going hand-in-hand with the "run-for-fun" theory is the "freedom-to-fail" theory.

"I got this from Don Church at Wheaton," says Carius. "He believed that you go into competition to do your best, to give it all. But you are still the same person after the race whether you did well or had a bad day. The individual comes before the sport. It's OK if the individual fails."

"I think the guys on our team know that. If they step off the course, our relationship is still the same. We're still friends. The most important thing you have going for you is what you have in your head. The motivation and confidence that you can win."

Carius downplays the notion that some of the confidence his teams have might have come from running the championship course before the season and studying photos of the course throughout the fall.

He says there are many ingredients

*Al Carius, men's cross country coach at North Central College, takes his daily run around the town of Naperville, Illinois, with his team. Carius' teams have won eight NCAA Division III championships in the past 10 years.*

that contribute to a championship season. But is the trip one that he would want to leave out?

"I think it adds an interesting flavor."

## Dates and sites brochure mailed

Dates and sites of the 73 NCAA championships to be contested during the 1983-84 academic year are listed in the new edition of the dates and sites brochure, now available from the national office.

The 20-page pamphlet contains information on the dates and sites of the championships offered in 21 sports for men and women in each of the Association's three membership divisions. When available, dates and sites of regional competition also are included.

Dates and sites that have been approved for future championship events and annual Conventions also are included, along with a description of the procedures involved if an institution is interested in serving as host to an NCAA championship.

Requests for copies of the dates and sites brochure should be directed to the championships department at the NCAA national office.

## 1983-84 NCAA championships dates and sites

### Fall

**Cross Country, Men's:** Division I, 45th, Lehigh University, Bethlehem, Pennsylvania, November 21, 1983; Division II, 26th, University of Wisconsin, Parkside, Kenosha, Wisconsin, November 12, 1983; Division III, 11th, Christopher Newport College, Newport News, Virginia, November 19, 1983.

**Cross Country, Women's:** Division I, 3rd, Lehigh University, Bethlehem, Pennsylvania, November 21, 1983; Division II, 3rd, University of Wisconsin, Parkside, Kenosha, Wisconsin, November 12, 1983; Division III, 3rd, Christopher Newport College, Newport News, Virginia, November 19, 1983.

**Field Hockey:** Division I, 3rd, University of Pennsylvania, Philadelphia, Pennsylvania, November 18 and 20, 1983; Division II, 3rd, campus site to be determined, November 12, 1983; Division III, 3rd, campus site to be determined, November 11-12, 1983.

**Football:** Division I-AA, 6th, The Citadel, Charleston, South Carolina, December 17, 1983; Division II, 11th, McAllen, Texas, December 10, 1983; Division III, 11th, Kings Island, Ohio, December 3, 1983.

**Soccer, Men's:** Division I, 25th, Jacksonville University, Fort Lauderdale, Florida, December 10, 1983; Division II, 12th, campus site to be determined, December 3 or 4, 1983; Division III, 10th, campus site to be determined, December 3 or 4, 1983.

**Soccer, Women's:** 2nd championship, University of Central Florida, Orlando, Florida, November 19-20, 1983.

**Volleyball, Women's:** Division I, 3rd, University of Kentucky, Lexington, Kentucky, December 17-19, 1983; Division II, 3rd, Florida Southern College, Lakeland, Florida, December 9-10, 1983; Division III, 3rd, University of La Verne, La Verne, California, December 9-10, 1983.

**Water Polo, Men's:** 15th championship, California State University, Long Beach, Long Beach, California, November 26-27, 1983.

### Winter

**Basketball, Men's:** Division I, 46th, The Kingdome, University of Washington, Seattle, Washington, March 31 and April 2, 1984; Division II, 28th, American International and Springfield Colleges, Springfield Civic Center, Springfield, Massachusetts, March 23-24, 1984; Division III, 10th, Calvin College, Grand Rapids, Michigan, March 16-17, 1984.

**Basketball, Women's:** Division I, 3rd, University of California, Los Angeles, Los Angeles, California, March 30 and April 1, 1984; Division II, 3rd, American International and Springfield Colleges, Springfield Civic Center, Springfield, Massachusetts, March 23-24, 1984; Division III, 3rd, University of Scranton, Scranton, Pennsylvania, March 16-17, 1984.

**Fencing, Men's:** 40th championship, Princeton University, Princeton, New Jersey, March 20-21, 1984.

**Fencing, Women's:** 3rd championship, Princeton University, Princeton, New Jersey, March 22-24, 1984.

**Gymnastics, Men's:** Division I, 42nd, University of California, Los Angeles, Los Angeles, California, April 12-14, 1984; Division II, 17th, Springfield College, Springfield, Massachusetts, March 29-31, 1984.

**Gymnastics, Women's:** Division I, 3rd, University of California, Los Angeles, Los Angeles, California, April 6-7, 1984; Division II, 3rd, Springfield College, Springfield, Massachusetts, March 29-31, 1984.

**Ice Hockey, Men's:** Division I, 37th, Clarkson College and St. Lawrence University, Lake Placid, New York, March 22-24, 1984; Division II, 7th, campus site to be determined, March 15-17, 1984.

**Rifle, Men's and Women's:** 5th championship, Murray State University, Murray, Kentucky, March 16-17, 1984.

**Skating, Men's and Women's:** 31st championship, University of New Hampshire, Attitash Ski Mountain and Jackson Touring Center, Bartlett, New Hampshire, March 7-10, 1984.

**Swimming and Diving, Men's:** Division I, 61st, Cleveland State University, Cleveland, Ohio, March 21-24, 1984; Division II, 21st, Hofstra University, Hempstead, New York, March 7-10, 1984; Division III, 10th, Emory University, Atlanta, Georgia, March 15-17, 1984.

**Swimming and Diving, Women's:** Division I, 3rd, IU-PUI Natatorium, Indianapolis, Indiana (Indiana University, Bloomington, host), March 15-17, 1984; Division II, 3rd, Hofstra University, Hempstead, New York, March 7-10, 1984; Division III, 3rd, Emory University, Atlanta, Georgia, March 8-10, 1984.

**Indoor Track, Men's:** 20th championship, Syracuse University, Carrier Dome, Syracuse, New York, March 9-10, 1984.

**Indoor Track, Women's:** 2nd championship, Syracuse University, Carrier Dome, Syracuse, New York, March 9-10, 1984.

**Wrestling:** Division I, 54th, Meadowlands Arena, East Rutherford, New Jersey (Princeton University host), March 8-10, 1984; Division II, 22nd, Morgan State University, Baltimore, Maryland, February 24-25, 1984; Division III, 11th, State University of New York, Binghamton, New York, February 24-25, 1984.

### Spring

**Baseball:** Division I, 38th, Rosenblatt Municipal Stadium, Omaha, Nebraska (Creighton University host), June 1-17, 1984; Division II, 17th, University of California, Riverside, Riverside, California, May 26-30, 1984; Division III, 9th, Marietta College, Marietta, Ohio, May 31-June 3, 1984.

**Golf, Men's:** Division I, 87th, Bear Creek Golf World, Houston, Texas (University of Houston host), May 23-26, 1984; Division II, 22nd, site to be determined, May 15-18, 1984; Division III, 10th, State University of New York, Oswego, New York, May 15-18, 1984.

**Golf, Women's:** 3rd championship, Innisbrook Resort and Golf Club, Tarpon Springs, Florida (University of Georgia host), May 23-26, 1984.

**Lacrosse, Men's:** Division I, 14th, University of Delaware, Newark, Delaware, May 26, 1984; Division III, 5th, campus site to be determined, May 19, 1984.

**Lacrosse, Women's:** 3rd championship, Boston University, Boston, Massachusetts, May 19-20, 1984.

**Softball, Women's:** Division I, 3rd, Seymour Smith Softball Complex, Omaha, Nebraska (Creighton University host), May 17-18, 1984; Division II, 3rd, site to be determined, May 18-20, 1984; Division III, 3rd, St. Norbert College, DePere, Wisconsin, May 19-22, 1984.

**Tennis, Men's:** Division I, 100th, University of Georgia, Athens, Georgia, May 12-20, 1984; Division II, 22nd, site to be determined, May 7-13, 1984; Division III, 9th, Emory University, Atlanta, Georgia, May 7-12, 1984.

**Tennis, Women's:** Division I, 3rd, University of California, Los Angeles, Los Angeles, California, May 12-20, 1984; Division II, 3rd, University of Tennessee, Chattanooga, Chattanooga, Tennessee, May 7-12, 1984; Division III, 3rd, Kalamazoo College, Kalamazoo, Michigan, May 7-12, 1984.

**Outdoor Track, Men's:** Division I, University of Oregon, Eugene, Oregon, May 28-June 2, 1984; Division II, 22nd, Southeast Missouri State University, Cape Girardeau, Missouri, May 21-26, 1984; Division III, 11th, site to be determined, May 21-26, 1984.

**Outdoor Track, Women's:** Division I, 3rd, University of Oregon, Eugene, Oregon, May 28-June 2, 1984; Division II, 22nd, Southeast Missouri State University, Cape Girardeau, Missouri, May 21-26, 1984; Division III, 11th, site to be determined, May 21-26, 1984.

**Volleyball, Men's:** 15th championship, University of California, Los Angeles, Los Angeles, California, May 4-5, 1984.

# CFA to help cover legal costs of Georgia, Oklahoma in TV suit

During a meeting last month in Atlanta, Georgia, the College Football Association Television Committee voted to recommend that the CFA's board of directors investigate methods to assist in underwriting the legal expenses incurred by the Universities of Georgia and Oklahoma during their antitrust suit against the NCAA.

The committee voted to determine if there was surplus revenue available from authorized television assessments that could be used for this

purpose. If not, the committee asked the board of directors to consider requesting contributions from the membership.

The two universities, at the request of the CFA, filed the case in September 1981. One week before the June 1982 district court trial, the CFA membership voted to finance the trial strictly on a voluntary basis.

Among other items discussed by the committee, it was agreed that a possible CFA football television plan

should be flexible enough to be sold to more than one television network and that the number of exposures be adjusted accordingly. It also was agreed that any team could appear on a CFA package a maximum of four times per year and that team-appearance limits should be established on an annual, rather than a two-year, basis. The committee recommended that a \$250,000 guarantee be established as a fee for each institution that agrees to participate in the plan.

The CFA Television Committee also recommended a series of six seminars, designed to educate the CFA membership about possible marketing concepts for college football. The seminars are contingent upon resolution of the current litigation and the effectiveness of a coalition committee.

## Amendment deadline nears

The deadline for submission of proposed amendments for the 1984 NCAA annual Convention is Tuesday, November 1.

Unless sponsored by the NCAA Council or a division steering committee, any legislation must be proposed by six active member institutions. Instructions and forms to be used in submitting amendments were mailed last month.

The procedures for proposing NCAA legislation are set forth in Constitution 7-1 and Bylaw 13-1, pages 45 and 147-148 of the 1983-84 NCAA Manual.

In addition to the six-sponsor

requirement, proposed amendments must be received in the national office by November 1. Any submission received after that date must have been sent by certified or registered mail postmarked not later than October 25.

All properly submitted proposals will be included in the Official Notice of the 78th NCAA Convention, which will be mailed from the national office no later than November 22.

Questions regarding specific amendments or the legislative procedure in general should be directed to Stephen R. Morgan, director of legislative services, at the national office.

## NBA adopts drug policy

National Basketball Association officials have adopted a drug policy that calls for expulsion of any player convicted or pleading guilty to a crime involving the use or distribution of heroin or cocaine.

The policy was announced by NBA President Larry O'Brien and Larry Fleisher, general counsel of the NBA players association.

"The message we are sending out today is clear: drugs and the NBA do not mix," said O'Brien. "If you want to get involved with drugs, you won't be involved in the NBA."

According to the agreement, any player who voluntarily comes forward to seek treatment for a drug problem will receive counseling and medical care. Players found through testing procedures to have illegally used heroin or cocaine also will face expulsion.

## Utah

*Continued from page 8*

and Char Hagemann, and senior Rene Bosle.

Penn State, New Mexico, Ohio State, West Virginia and Division II power Denver are among the Cornhusker opponents, along with the traditional Big Eight competition.

In the East, New Hampshire will field another strong team. Nine letter winners return from a squad that posted a 12-0 regular-season mark and finished second to Ohio State in the NCAA East regional by less than one point.

Penn State won the Atlantic 10 championships last season, but coach Judi Avenier will have to rely on freshmen and sophomores. "Our team this year is young," said Avenier, "but our goal is to qualify for the NCAA championships."

Massachusetts also might make a bid in the East. Second to Penn State in the Atlantic 10 and fifth in the NCAA regionals, the Minute-women lost only two seniors to graduation.

West Virginia finished a notch below Massachusetts in the conference championships and a notch above in the regionals, evidence of inconsistency last season. Head coach Linda Burdette will count on sophomore Jan Funderburk and junior Shari Retton.

Yale won the Ivy League title and returns all-Ivy performers Mindy Rosenbaum and Sharon Livieri. A strong recruiting season should help.

North Carolina teams will be strong again. Duke advanced to the regionals, posted a 16-3 record and defeated rival North Carolina for the first time. Duke head coach Ken Miller returns many top performers, and he landed a fine freshman,

Cathleen McMullen.

North Carolina set four team scoring records last season, and five returning performers join seven freshmen. The Tar Heels' demanding schedule includes New Hampshire and Alabama.

North Carolina State was sixth in the East regional in only its third year of varsity competition. Head coach Mark Stevenson should have more depth this year.

In the Midwest, the Big Ten and Big Eight promise to produce solid teams. In addition to Ohio State, Michigan State and Minnesota will be prominent in the Big Ten. Oklahoma and Oklahoma State might challenge Nebraska for the Big Eight title.

Michigan State recorded a team-high 176.65 points against Ohio State last season, and coach Michael Kasavana has added six freshmen to his squad.

Minnesota finished second in the Big Ten and in the NCAA Central regional, but regional all-around champion Robin Huebner has graduated. A possible replacement is freshman Laurie Kaiser, one of the country's top recruits.

Underclassmen dominate the Oklahoma roster, although head coach Rebecca Dunning Buwick estimates that this will be her best team. Junior Mary Jane Ousley and sophomore Tammi Richardson head the list of veterans.

Sophomore Teri Collins is Oklahoma State's brightest prospect, and the return of Lisa Hartmann, who was redshirted last year, will be a big boost.

Another team to watch is Bowling Green State, winner of the Mid-American Athletic Conference last

## Norenberg joins NCAA enforcement

Lynn Norenberg, a former basketball player at the College of William and Mary, has joined the NCAA enforcement department as an enforcement representative.

After graduating with honors from William and Mary, Norenberg earned a master's degree from the University of Kentucky, where she also served as a graduate assistant coach for the women's basketball team.

Norenberg was cocaptain and the team's leading scorer during her senior season. She also participated in track and softball at William and Mary. She was named academic all-America after her junior and senior years.

Norenberg is the second female enforcement representative to join the NCAA.

season. Senior Julie Bender is head coach Charles Simpson's top contender.

In the West, Southern California could be ready to challenge UCLA for supremacy. Suzy Kellems returns after all-America performances in the vault and uneven bars at the national championships last season. Freshman Luci Collins was a member of the 1980 Olympic team, adding to the Trojans' potential.

Washington finished fifth in the West regional last season and returns all of its all-around performers. Senior Suzie Sun led the team in scoring in four of five events as a junior.

A young Utah State was among the nation's scoring leaders last season. Sophomores Michelle Pohl-Hunger and Brenda Carr are top returnees.

Oregon will have one major advantage over last year: a full team. Coach Ed Boyd already is claiming comeback-of-the-year awards, since his 1983 team was made up of Tracy Manduchi and Holly Holmes. Five freshmen have been added, and Boyd is looking forward to his second year at the helm.

Denver is moving up from the Division II ranks. The Pioneer Women won the 1983 national championship. Karen Beer, all-around, uneven-bars and balance-beam champion, is back for more.

Joining Beer are juniors Heather Earl and Linda Kring, sophomore Heidi Sjoridal and freshmen Diana Detweiler, and Connie Ulrich. Head coach Dan Garcia's squad has an ambitious schedule that includes Oklahoma, Oklahoma State, New Hampshire, Nebraska and New Mexico.

## Championships Corner

1. Dates and sites have been determined and approved for the following 1983-84 NCAA championships:

Divisions II and III Wrestling Championships—February 24-25, 1984, instead of March 2-3, 1984, as reported in the August 31 issue of The NCAA News.

Division I Men's Lacrosse Championship—first round, May 16; semifinals, May 20; final game, May 26.

Division III Men's Lacrosse Championship—first round, May 9; semifinals, May 13; final game, May 19.

Division I Men's Lacrosse Championship—Brown University, first round, May 15; semifinals, May 19; final game, May 25.

Division II Men's and Women's Swimming and Diving Championships—Hofstra University, March 8-10.

Division III Women's Swimming and Diving Championships—Emory University, March 8-10.

Men's Water Polo Championship—California State University, Long Beach, November 26-27.

Division I Women's Softball Championship—first-round games will be played May 17-18, rather than May 11-12.

West regional for Division I Men's and Women's Cross Country Championships—University of Oregon, November 12.

Midwest regional for Division III Wrestling Championships—University of the South, February 17-18.

East regional for Division I Wrestling Championships—George Mason University, February 24-25.

Women's Lacrosse Championship—Boston University, May 19-20.

Men's and Women's Indoor Track Championships—Carrier Dome, Syracuse, New York (Syracuse University will serve as host institution), March 9-10.

Northeast regional for Division II Women's Gymnastics Championships—Keene State College; Southeast regional—Radford University, March 17.

Zone diving qualifying meets for 1984 Division I Men's and Women's Swimming and Diving Championships—Zone A, U.S. Naval Academy; Zone B, University of Florida; Zone D, University of Arkansas, Fayetteville, and Zone E, Arizona State University.

Division III Men's Tennis Championships—Emory University, May 7-12.

Division II Men's Tennis Championships—Southwest Texas State University, May 7-13.

### Future dates and sites

2. Future dates and sites were determined and approved for two NCAA championships:

1985 Division I Men's Tennis Championships, University of Georgia, May 11-19; 1986 Division I Men's Tennis Championships, University of Georgia, May 10-18.

1985 and 1986 Men's and Women's Indoor Track Championships, Carrier Dome, Syracuse, New York.

### Automatic qualification

3. Automatic qualification has been granted for conferences in the following 1983-84 NCAA championships:

Division I-AA Football Championship—Automatic qualification withdrawn from the Mid-Eastern Athletic Conference and Southwestern Athletic Conference. Members of both conferences will be eligible for consideration as at-large selections for the 1983 championship.

Division III Women's Volleyball Championship, Division III Women's Basketball Championship—Chicago Metro Conference.

Division II Women's Basketball Championship—California Collegiate Athletic Association, Central Intercollegiate Athletic Association, Great Lakes Valley Conference, Lone Star Conference, Missouri Intercollegiate Athletic Conference, New England Collegiate Conference, North Central Intercollegiate Athletic Conference, Northeast-8 Conference, Northern California Athletic Conference, Pennsylvania State Athletic Conference, Southern Intercollegiate Athletic Association and Upstate New York Women's Basketball Conference.

Division I Men's and Women's Swimming and Diving Championships—Southeastern Conference—two in three-meter diving; Big Eight Conference—one in one-meter diving; Pacific-10 Conference—one in three-meter diving.

Division II Women's Softball Championship—North Central Intercollegiate Athletic Conference.

### Format changes

4. The following format changes have been approved for the Men's Fencing Championships: two fencers, rather than one, may represent an institution in each event in the NCAA championships; the championships will be reduced from three days to two, and a direct-elimination format will be used; the regional allocations for the 1984 championships will be as follows: East—19 in each event; Midwest—eight in each event; West—three in each event.

5. The states of Colorado, Kansas, Nebraska, North Dakota, South Dakota and Tennessee have been placed in the Midwest region for the 1984 Division II Men's Tennis Championships.

6. The following allocations have been approved for the 1984 Division I Men's Swimming and Diving Championships: Zone A—five each in one-meter and three-meter diving; Zone B—four in one-meter diving and six in three-meter diving; Zone C—11 in one-meter diving and 12 in three-meter diving; Zone D—12 in one-meter diving and nine in three-meter diving; Zone E—four each in one-meter and three-meter diving.

## Gulf Star Conference to begin

Five NCAA member institutions will compete in the newly formed Gulf Star Conference beginning with the 1984-85 academic year.

At an organizational meeting in Houston last month, Nicholls State University, Sam Houston State University, Southeastern Louisiana University, Southwest Texas State University and Stephen F. Austin State University were announced as charter members of the conference.

Championships are planned in eight men's and four women's sports. Men will compete in football, basketball, baseball, tennis, golf, cross country, outdoor track and indoor track. Women's championships will be conducted in basketball, volleyball, softball and tennis.

The conference plans to be an NCAA Division I allied member, although Southwest Texas State, Sam Houston and Stephen F. Austin still are Division II members. Southwest Texas moves to Division I in September 1984, and the other two schools will petition for reclassification to Division I.

# NCAA Record

## DIRECTOR OF ATHLETICS

DEF. ANDROS has signed a three-year contract at Oregon State and has announced that he plans to retire at the end of that agreement. He has been on the OSU staff since 1965, first as football coach and then as AD since 1975.

## ASSISTANT ATHLETICS DIRECTORS

Fresno State has hired DAVID BRAINE, an assistant AD at Virginia. He will work with the football and basketball programs and also with facility management. JERRY CHAPLIN, formerly assistant business manager at Towson State, named at Florida International. KAIA HEDLUND, women's swimming coach at California-Irvine, has been named acting assistant AD for the school year.

## COACHES

**Men's basketball assistants**—GREG CAPPER hired at Wisconsin-Milwaukee. He was an assistant at Ripon last season. CHRIS BRAZILL and STEVE JUGAN hired at Stevens Tech. Brazill played basketball at New England College, and Jugan was at Lock Haven before transferring to Geneva College. RUSS THOMPSON named at Fairleigh Dickinson-Teaneck. TOM HART chosen at U.S. International. JULIO DIAZ appointed assistant coach and director of promotions at Harvard. He was on the St. Anselm staff last season. JUDAS PRADA named a volunteer graduate assistant at California-Santa Barbara. Prada has played professionally in South America and has been a member of the Colombian national team. DICK BERNHART hired as a part-time assistant at St. Joseph's (Pennsylvania).

**Women's basketball**—JULIE CASEY selected at Occidental. She is a graduate of Occidental and has a master's in physiology from Stanford. SHIRLEY DUNCAN, who coached at Eastern Kentucky from 1975 to 1979, hired at Longwood.

**Women's basketball assistants**—Former Cal State Los Angeles coach DICK MARQUIS hired at California-Irvine. Also joining the staff is TERRI BAMFORD, a former player for the Anteaters. SHERRI BLOUNT, a former graduate assistant and undergraduate player at North Alabama, hired at Alabama. She replaces KELLY HOLLAND, who accepted a teaching and coaching position at a private high school. ANNETTE WHITAKER promoted from graduate to full-time assistant at Montana.

**Football**—Rice coach RAY ALBORN announced his resignation effective at the end of the current season. Alborn is in his sixth season at Rice and had a 13-48 record through the first six weeks of this season.

**Men's gymnastics**—STEVE FERRARO hired at Wisconsin-Whitewater, where he competed as an undergraduate (1974-1977). He has coached on the high school and club levels.

**Women's gymnastics**—ALBERT M. "AL" GOMEZ named at Rutgers. He previously was an assistant at Rutgers and Trenton State.

**Men's lacrosse**—HENRY CICCAREONE, who guided Johns Hopkins to three national championships and four runner-up finishes in nine seasons, has resigned to enter private business. Assistant coach DON ZIMMERMAN has been named to the head post.

**Men's lacrosse assistant**—JOHN LAMB, captain last season at Ithaca, named at Villanova.

**Women's softball**—KATHY STRAHAN named at Cal State Dominguez Hills. She was a standout at Michigan State as an undergraduate and went on to play for the Raybestos Brakettes. She won a Pan American Games gold medal in 1979.

**Men's swimming assistants**—PATTY McDONNELL named men's and women's diving coach at Oakland. After competing for Michigan State, she coached at Central Missouri State and

Ball State. Former California-Irvine swimmer DANNY LOCKHART hired at his alma mater.

**Women's swimming**—MAURA COSTIN, who has been an assistant at Texas since June, named at Princeton. Costin was an all-America as an undergraduate at Harvard and later coached at Alabama.

**Women's swimming assistants**—VANCE ROSE and THERESA MYERS hired at Alabama. Rose previously was director of the City of Mobile Swimming Association, and Myers was coach of the Americus, Georgia, swim club.

**Men's tennis**—GARY DRUCKMAN chosen at California-Santa Barbara. He had been head coach at San Diego City College.

**Women's tennis**—LISA C. BERITZHOFF, a local club professional and former California assistant, appointed at San Jose State.

**Women's tennis assistant**—BARBARA STACK named graduate assistant at Alabama.

**Men's track and field**—JEFF DeGRAW, former coach at Nebraska Wesleyan, named men's and women's cross country coach and women's basketball coach at Navajo Community College in Tsaile, Arizona.

**Men's track and field assistant**—Former Soviet Union national sprint coach REMI KORCHEMNY hired at Stanford, where he will work with the sprinters, long jumpers, triple jumpers and the weight program for runners. Most recently, Korchemny coached at Pratt.

**Women's volleyball**—PEGGY DAY, a former member of the Canadian national team, named at Northeastern.

**Wrestling assistants**—RICK GUMBLE hired at Binghamton along with graduate assistants MIKE POLAKOFF and MIKE CARRA. Gumble is a former junior college coach, while Polakoff and Carra both wrestled for Binghamton.

## STAFF

**Promotion director**—JULIO DIAZ named at Harvard (see men's basketball assistants).

**Trainer**—KATHLEEN M. FLANAGAN hired as women's trainer at San Jose State. Flanagan was assistant men's trainer last year at San Jose State.

## CONFERENCE

CHUCK NAGLE, a coordinating producer for the Entertainment and Sports Programming Network, named director of marketing and promotions for the Atlantic 10.

## NOTABLES

FRANCIS ALLEN, who has coached Nebraska to five straight NCAA Division I Men's Gymnastics Championships titles, named coach of the year by the U.S. Gymnastics Federation. Occidental's LYNN PACALA has been named Division III women's tennis coach of the year by Wilson. Her squad won the NCAA title in 1982 and finished third last season.

## POLLS

### Division I Field Hockey

The top 20 teams in NCAA Division I field hockey through games of October 9, with season records in parentheses and points.

1. Connecticut (9-0-1)	120
2. Old Dominion (6-0)	114
3. Iowa (12-1-2)	106
4. Massachusetts (8-0-1)	103
5. Penn State (8-0-4)	94
6. New Hampshire (8-2-1)	88
7. San Jose State (7-1)	86
8. Northwestern (10-3)	78
9. Temple (7-0)	71
10. North Carolina (5-1-3)	70
11. Dartmouth (5-1-1)	56
12. Stanford (6-5)	55
13. Lehigh (8-1)	45
14. California (5-4-1)	44
15. Davis & Elkins (4-1-1)	36

16. SW Missouri State (8-2-2)	34
17. Northern Illinois (6-2)	19
18. Maryland (3-3)	18
19. James Madison (5-5)	12
20. Harvard (4-4)	10

### Division III Field Hockey

The top 20 teams in NCAA Division III field hockey through games of October 9, with season records in parentheses and points.

1. Trenton State (10-0)	100
2. Ithaca (7-2)	95
3. Tufts (6-0-1)	90
4. Salem State (11-0)	85
5. Denison (7-1-1)	80
6. Bates (7-0-2)	75
7. Smith (10-0-1)	70
8. Drew (10-2-1)	65
9. Onconia State (9-0-1)	60
10. Lynchburg (7-3-1)	55
11. Haverford (6-1)	50
12. Muhlenberg (7-2)	45
13. Salisbury State (9-5)	40
14. Franklin & Marshall (6-2-3)	35
15. Albright (5-3-1)	30
16. Wooster (6-1-2)	25
17. Frostburg State (5-3-1)	20
18. Messiah (6-1-1)	15
19. Wheaton (Mass.) (9-2)	10
20. Elizabethtown (5-3-1)	5

### Division I-AA Football

## Briefly in the News

In a recent soccer match, Wright State University scored what Dave Stahl, sports information director, thinks might be a record three goals in a 45-second span. Are there any arguments?

The Pacific-10 Conference leads all conferences in players in the National Football League with 190, according to the conference office. Next in line is the Big Ten Conference with 115, followed by the Southeastern Conference with 109, the Southwest Athletic Conference with 102, the Big Eight Conference with 99 and the Atlantic Coast Conference with 74. Linda Dollar won her 500th volleyball match as head coach at Southwest Missouri State University last month. Dollar, who also is assistant women's athletic director, has taken her teams to national championships in each of her 11 seasons as head coach. Her overall record is 502-131-15.

Four former Creighton University athletes have been awarded merit scholarships as the first recipients of a new program. The four—Kevin McKenna, basketball; Daryl Stovall, basketball and baseball; Jean Tierney, softball, and Todd Wenberg, baseball—will use the money to complete their undergraduate degrees. A university spokesperson said that several athletes are unable to complete their degrees in a four-year period because of the demands placed upon them by their sports. Thirty-five of the 40 members of the undefeated and untied 1933 DePauw University football team still survive, and 27 players and the widows of two players returned to campus October 8 for the 77th homecoming and the team's 50th reunion. When the university began construction of a \$7.2 million physical education and recreation center in 1979, the 1933 team announced its plan to raise \$1 million in memory of its coach, Raymond "Gaumey" Neal, who died in 1977. The team eventually committed \$2.2 million to the project.

# Administrative

Continued from page 3

and holds a master's degree from Indiana University, Bloomington.

Last June, Levick moved to the communications department to devote full time to women's athletics media relations and promotion. The Executive Committee earlier had approved \$300,000 to be used in the current fiscal year for promoting women's athletics.

Levick's previous position was filled by S. Patricia Walden, who had been an administrative assistant at the National Junior College Athletic Association, where she dealt primarily with women's programs.

Walden has a master's degree from Ohio State University, and she taught seven years in the Bowling Green, Ohio, school system. She has served

as a member of the advisory board of the Women's Sports Foundation.

The growth of women's athletics, particularly in the past three years, Berkey says, "is a result of the efforts of this highly competent, outstanding group of women who have worked diligently to increase opportunities for women student-athletes."

"The number of positions created by the NCAA over the past three years demonstrates the Association's continuing commitment to provide opportunities for professional growth for women's athletics administrators and the best opportunities for women student-athletes."

The 1983 NCAA Convention also adopted legislation to bring women's programs under the full enforcement procedure. That legislation became

effective last August 1.

Two women now serve the Association on the enforcement department staff.

Marcia Morey, a graduate of the Northwestern University School of Law, joined the staff in September 1982. This month, Lynn Norenberg, who earned a master's degree at the University of Kentucky, was appointed an enforcement representative.

Morey was a varsity swimmer at Millikin University and, in 1975, she served as captain of the U.S. Pan American swimming team; in 1976, she was selected cocaptain of the U.S. Olympic swimming team.

Norenberg was cocaptain of the basketball team at the College of William and Mary in her senior year. She also participated in track

and softball and was named an academic all-America after her junior and senior years. At Kentucky, Norenberg was a graduate assistant coach for the women's basketball team.

Women have served the Association in many administrative capacities before and after the adoption of the governance plan.

Additional staff members and their dates of employment include Marjorie K. Fieber, business manager (July 1952); Fannie B. Vaughan, administrative assistant (June 1963); Shirley Whitacre, membership coordinator (March 1964); Lydia Sanchez, administrative assistant (September 1969); Janice I. Bump, legislative assistant (February 1970); Maxine R. Alejos, circulation manager

(January 1972); Regina L. McNeal, assistant statistics coordinator (November 1981), and Jennifer A. Boyer, productions coordinator (September 1983).

"Everything that the NCAA pledged to do in women's athletics has been done," Berkey said, "and the initial commitments have been fulfilled. With the outstanding women's staff assembled by the Association, we are confident that the challenges ahead will be met and successfully resolved for the betterment of women's intercollegiate athletics."

(Next: An in-depth look at the NCAA Council Subcommittee on Women's Interests and its plans to meet with primary women administrators at the 1984 Convention.)

## The NCAA News

## The Market

Readers of The NCAA News are invited to use The Market to locate candidates for positions open at their institutions, to advertise open dates in their playing schedules or for other appropriate purposes.

Rates are 35 cents per word for general classified advertising (agate type) and \$17.60 per column inch for display classified advertising. Orders and copy are due by noon five days prior to the date of publication for general classified space and by noon seven days prior to the date of publication for display classified advertising. Orders and copy will be accepted by telephone.

For more information or to place an ad, call 913/384-3220 or write NCAA Publishing, P.O. Box 1906, Mission, Kansas 66201.

### Positions Available

#### Commissioner

**Commissioner, Gulf Star Conference.** Organizational information: The Gulf Star Conference is an organization of five member universities and one other member, to be added before January 1, located in Louisiana and Texas. The conference is Division I-AA football and Division I for all other sports. Members are Nicholls State University, Southwest Texas State University, Stephen F. Austin State University, Sam Houston State University and Southeastern Louisiana University. Neale R. Stoner  
Director of Athletics  
University of Illinois  
112 Assembly Hall  
1800 South First Street  
Champaign, Illinois 61820

The University of Illinois is an Affirmation Action/Equal Opportunity employer.

### SMITH COLLEGE NORTHAMPTON, MASSACHUSETTS Associate Director of Intercollegiate and Intramural Athletics

Smith College invites applications for the position of Associate Director of Athletics. This administrative position carries an initial two-year appointment. Salary commensurate with qualifications and experience. This position reports directly to the Athletic Director and will have responsibilities for assisting the Director in planning, organizing, developing and maintaining a comprehensive capital athletic program of athletics and intramurals for women. The Associate Director will aid in some basic administrative duties, program development, budgeting, purchasing, use of facilities, scheduling, eligibility and staff development. The Associate Director will assume the responsibilities and authority of other activities as assigned by the Director. There may be an opportunity for some coaching. Preference will be given to candidates with administrative experience and a completed advanced degree. The position begins August 28, 1984, and will be a ten-month appointment for the first year. A formal letter of application and curriculum vitae, along with five references, three of whom should be asked to correspond directly with the Director of Athletics, should be submitted by November 5, 1983, to:

Lawrence A. Fink  
Director of Athletics  
Smith College  
Ainsworth Gymnasium  
Northampton, MA 01063

Smith College, a highly selective liberal arts college located in Northampton, Massachusetts, with 2,500 students, is a residential college for women. Known for its high academic standards for 108 years, Smith fields 15 intercollegiate varsity teams: basketball, crew, cross country, field hockey, gymnastics, lacrosse, riding, skiing, soccer, softball, squash, swimming and diving, tennis, track and field, and volleyball. The College is a Division III participant in the NCAA, ECAC, MAIAW and NIAC. Smith College is an equal opportunity employer.

### UNITED STATES OLYMPIC COMMITTEE Assistant Director of Public Information

The U.S. Olympic Committee is seeking applications for the position of Assistant Director of Public Information. The position is open in the USOC's division which deals with the news media and public in an information and relations capacity. In addition, the position requires the individual to handle the publication of The Olympian Magazine in addition to a wide range of media service-related activities at USOC and other amateur sports events. Excellent oral and written communications skills are required, along with at least three years in collegiate sports information field or related department in another sports-related organization or in the news media. Experience in dealing with the national news media is preferred, as well as the ability to expand with an organization dealing in worldwide sporting activities and amateur sports leadership nationally. Salary is commensurate with qualifications and experience. Application deadline is November 1, 1983. Direct applications, resumes and letters of recommendation to:

Mike Moran  
United States Olympic Committee  
1750 East Boulder Street  
Colorado Springs, CO 80909

### ORAL ROBERTS UNIVERSITY Sports Information Director

Person applying should have experience in sports public relations and communications. Duties will include the administration and supervision of a three-person office. Must acknowledge Jesus Christ as Saviour and Lord, and their lifestyle must be a demonstration of their commitment.

Send resume and letter of application or call, Larry Cochell, Mabree Center, Oral Roberts University, 7777 South Lewis, Tulsa, Oklahoma 74171 (918) 495-7177.

### Pool and Aquatics Director

Bentley College is a modern campus located in pleasant suburban surroundings, approximately 10 miles from Boston and two miles from Route 128, Exit 48-E. We offer competitive compensation and benefits.

This is a highly responsible position for the person with the proper credentials and experience. The position requires the skills and abilities to establish, implement, coordinate and supervise a multi-faceted pool and aquatics program. Management will require attention to physical education, intramural, recreational, community and income-producing programs. There will be extensive interaction with college administration, faculty, students, alumni and the local and business communities. Long hours are a part of the position.

Requirements: Bachelor's degree (Master's preferred). Extensive experience in physical education and recreation; proven organizational, management, administrative and communication skills; a complete set of Red Cross and State specialized certifications; good working knowledge of chemicals and related equipment; competent understanding of health and safety features; ability to promote income, summer utilization and to implement outreach programs.

Qualified applicants please send resume to: Compensation/Employment Administrator, Human Resources Office, Bentley College, Lewis Hall, Beaver and Forest Streets, Waltham, MA 02254. Application deadline is October 21, 1983.

AN EQUAL OPPORTUNITY/AFFIRMATIVE  
ACTION EMPLOYER M/F

## Judge sets hearing date

A Federal judge has refused to dismiss a suit against the NCAA by St. John's University (New York) and Walter Berry, a former high school player who planned to play at the university but was determined by the NCAA Council to be ineligible under the 2.000 rule [Bylaws 5-6-(b) and 5-1-(j)].

The NCAA sought to have the suit dismissed because Berry now is a student at San Jacinto Junior College, Pasadena, Texas, and no longer is enrolled at St. John's.

Judge Charles P. Sifton of the U.S. District Court in New York City instructed both parties to be ready for a November 22 hearing,

stating that the plaintiffs are entitled to a trial.

In September, Judge Sifton refused to grant the plaintiffs' motion for a preliminary injunction that would have allowed Berry to be eligible immediately. At that time, the judge stated that the NCAA's application of the 2.000 rule to Berry's situation "will survive any level of scrutiny."

Berry left high school in June 1982 without graduating and with a grade-point average below 2.000. In 1982-83, he accumulated 24 credits as a nonmatriculated student at St. John's and became eligible for a high school equivalency diploma under a St. John's program approved by the state of New York.

## NCAA

*Continued from page 3*

rule "contemplates two colleges, the first and the second. If one plays for a college one year, he can't play for another college the next year. He must sit out for a year after playing for the first college."

"Reduced to its simplest terms, a player may not jump from one college

to another in successive years."

English argued his case through four steps of the NCAA administrative procedures, including an in-person hearing before the NCAA Council. He also was involved in a five-day trial in civil district court, after which the district court judge ruled in favor of the NCAA.

## Letter-of-intent materials mailed

Registration material for the National Letter of Intent program has been mailed to conference offices for distribution to the athletics directors and primary administrators of women's athletics programs at their member institutions, according to Fred Jacoby, Southwest Athletic Conference commissioner, who administers the program for the Collegiate Commissioners Association.

Independent institutions will receive the material from the conference offices that administer their programs.

Signing dates in men's programs

are as follows:

Men's football—mid-year junior college transfers, December 15, 1983, to January 15, 1984; other football, February 8, 1984, to May 1, 1984; basketball—November 9, 1983, to November 16, 1983, or April 11, 1984, to May 15, 1984; all other men's sports—April 11, 1984, to August 1, 1984.

Women's basketball—November 9, 1983, to November 16, 1983, or April 11, 1984, to August 1, 1984; volleyball and field hockey—February 8, 1984, to August 1, 1984; all other women's sports—April 11, 1984, to August 1, 1984.

## Hurricanes to play basketball again

The University of Miami (Florida) men's basketball program, which was discontinued in 1971 because of financial reasons, will be reinstituted in 1985.

Miami President Edward T. Foote II said, "We are pleased that changes in the economics of intercollegiate basketball allow the university to resurrect one of the country's most popular sports, without cost to our academic offerings."

Foote also said the increase in television income in recent years makes basketball a money-maker at universities like Miami.

Sam Jankovich, director of athletics, said he wants to hire a head coach by early next spring. The coach would become fully involved in recruiting by the start of the 1984-85 season.

The university announced that the home court for the Hurricanes likely will be the 5,000-seat University of Miami James L. Knight Center in downtown Miami.

## Faxon named top college golfer

Brad Faxon of Furman University recently was named winner of the 1983 Fred Haskins Award as the nation's top collegiate golfer. Faxon was chosen by the Golf Writers Association of America, the Golf Coaches of America and a group of collegiate golfers.

Faxon, of Somerset, Massachusetts, won 12 tournaments during his collegiate career, was low amateur in the U.S. Open and runner-up in the U.S. Amateur. Faxon finished in a three-way tie for fifth place in this year's NCAA Division I Men's Golf Championships and in a three-way tie for third place in the 1982 championships.

Faxon joined the Professional Golfers Association tour this summer. His best finish to date was a tie for seventh place in the Buick Open.

## New women's conference formed

The North Star Conference, a women's conference composed of eight Division I independents, will begin championship competition this fall.

Members of the conference, an NCAA Division I allied member, are Butler University, Dayton University, DePaul University, University of Detroit, University of Evansville, Loyola University (Illinois), University of Notre Dame and Xavier University.

Women's championships will be conducted in basketball, volleyball, swimming, softball, cross country and tennis, according to Elaine Driedame, women's athletics director at Dayton and conference president.

## Basketball all-star game planned

Officials of the National Order of the Elks and the Naismith Memorial Basketball Hall of Fame have announced plans for a college basketball all-star game to be held May 5 in Indianapolis, Indiana.

Proceeds from the game will be used to help finance construction of a new hall of fame in Springfield, Massachusetts. More than \$8 million already has been raised for the new \$11 million structure.

Lee Williams, executive director of the hall of fame, said efforts are being made to land a national television contract for the game. The game will be played in Market Square Arena.

## First

*Continued from page 1*

ciation's drug-abuse program and in the Catholic campus ministry while an undergraduate.

### Elizabeth Heiden

Beth Heiden has excelled in three sports. She owns world championships and Olympic (1980) medals in speed skating and has won three world championships as a cyclist. As a member of the 1982 and 1983 all-East collegiate skiing teams, she never finished lower than fourth in a collegiate cross country event. Heiden is the 1983 NCAA women's cross country skiing champion.

A math major, she has carried a 4.280 grade-point average (on a 5.000 scale) and made the dean's list at Vermont and the University of Wisconsin, Madison.

Heiden has been a coach with the Special Olympics International Year of the Handicapped. She was named Wisconsin athlete of the year in 1978, 1979 and 1980, and earned the same award in Vermont in 1983.

### John Paxson

Paxson led the Fighting Irish in scoring as a junior and senior and played in 25 consecutive games in which he scored at least 10 points. A

first team all-America selection as a junior and senior, Paxson was a semifinalist for the James Naismith Award and finished ninth in balloting for the John R. Wooden Award, presented annually to the senior collegiate player of the year.

Paxson had a 3.170 grade-point average in business administration/marketing. He was a two-time CoSIDA first-team academic all-America selection and was the leading vote-getter in 1983.

Paxson received an NCAA postgraduate scholarship in 1983. He has been active in the Association's Volunteers for Youth program and has coordinated a charity bike-a-thon.

### Sue Walsh

Walsh is the NCAA Division I women's swimming champion in the 50-, 100- and 200-yard backstroke events, and she swam a collegiate record 50-yard leg on the 1983 champion 200-yard medley relay team.

She has won six NCAA championships and three Association for Intercollegiate Athletics for Women (AIW) championships, as well as 12 Atlantic Coast Conference titles.

She owns NCAA championship records in the 50-, 100- and 200-yard

backstroke events. She participated in the 1983 World University Games and Pan American Games.

An accounting major at North Carolina, Walsh had a 3.750 grade-point average. She was a member of the Phi Eta Sigma and Phi Beta Kappa honorary societies and Beta Gamma Sigma (business administration) and Beta Alpha Psi (accounting) fraternities.

### Randy Wittman

A four-year starter at Indiana for coach Bob Knight, Wittman holds school records for most games started (125) and most minutes played. A senior cocaptain, he was named first team all-Big Ten and conference player of the year in addition to all-America recognition.

He posted a grade-point average of 3.200 in business and was awarded an NCAA postgraduate scholarship. Wittman twice was named to the CoSIDA first team academic all-America squad and earned all-Big Ten academic honors three times.

During the summer months, he served as playground director for the Bloomington, Indiana, area schools.

## Council

*Continued from page 1*

### Financial Issues

The Council voted to propose legislation that would move the limitation on a grant-in-aid from Constitution 3-1-(g)-(1) to the bylaws, thus enabling each division to deal separately with that issue.

The select committee had recommended that the Division I-A football grant limitation be revised from 30 initials and 95 awards in effect at any one time to 26 and 104, respectively, with comparable limits of four and 16 in Division I basketball. The Council decided not to sponsor that legislation at the upcoming Convention but directed the NCAA Administrative Committee to determine how best to study this concept for the future.

The Council had voted earlier in the year to propose legislation that would exempt up to \$900 of the Pell Grant from the NCAA aid limitation, an approach also recommended by the select committee.

Another select committee recommendation stated that a member institution should control the salary and all other sources of income received by its coaches, although the committee did not recommend specific legislation in that regard. The Council placed that matter on the agenda for its 1984 meetings.

### Governance

The committee's recommendations regarding governance were referred to the Special NCAA Committee on Governance Review for consideration in the latter's report to a special Council meeting scheduled for November 1 (see story on page 1 of this issue).

Included in that referral were these select committee positions:

• That institutions with major programs be provided greater autonomy in the NCAA's legislative process.

• That a summer legislative session for Division I-A be established, with members of that subdivision enabled to adopt football legislation relating exclusively to Division I-A and to discuss other issues and possibly propose legislation relating to them. No action of the summer meeting would become effective until after the succeeding January NCAA Convention, at which the Association's rescission procedures could be effected.

• That a council or board of presidents be established that would have authority to (1) review Association activities and advise the NCAA

Council, (2) commission studies of matters of concern in intercollegiate athletics, and (3) propose legislation directly to the NCAA Convention. The overwhelming majority of the committee did not believe such a presidents' board should have the power to veto or replace legislation enacted by an NCAA Convention.

### Enforcement and Recruiting

The select committee supported a "quiet period" surrounding the date upon which a prospective student-athlete signs the National Letter of Intent, a proposal that the Council had voted earlier to sponsor at the January Convention.

The select committee recommended that the Association develop a comprehensive audit and certification program in intercollegiate athletics "to bring sunshine to athletics programs that too often operate behind a curtain." Such a program would require the institution to share data with its opponents, its conference and the NCAA regarding academic records of its student-athletes, including academic standing upon admission, satisfactory progress toward a degree and graduation rates. It also suggested that consideration be given to a periodic self-analysis and accreditation program. The Council accepted that suggestion favorably, agreeing to study the concept in 1984. Schaefer termed this proposal "perhaps the most important recommendation the committee is offering."

The Council also placed on its 1984 meeting agendas these two select committee proposals:

• That the provisions of Bylaw 1-2-(b) prohibiting noninstitutional personnel from being involved in the recruitment of prospective student-athletes off campus be extended to on-campus recruiting, as well.

• That a special committee of persons experienced in interpreting NCAA legislation be appointed to handle immediate interpretation needs and to advise the Administrative Committee and the Council regarding interpretations.

President John L. Toner praised Schaefer and the members of the select committee "for a job tremendously well done."

The final report of the select committee will be printed and mailed to the membership and other interested groups during the week of October 24. The full text of the report will appear in the October 31 issue of The NCAA News.

### Other actions

Other actions at the October 10-12 Council meeting—which was dominated by consideration of proposed legislation for the 1984 Convention—included these:

• Agreed to sponsor legislation to establish legislative autonomy for Division I-A and the remainder of the Division I membership in all divided bylaws except those dealing with establishment of championships, including a procedure by which the Division I membership, by a two-thirds vote, could rescind the action of either Division I-A or the remainder of Division I.

• Adopted a statement of Division I philosophy, as proposed by the Special Committee on Division I Criteria. The statement now will be presented to the Division I membership at the January Convention.

• Took these actions regarding recommendations of the Special Committee on Player Agent:

1. Agreed to sponsor an amendment to Constitution 3-1-(h)-(4) to permit member institutions to provide counseling and advice to their student-athletes concerning potential professional athletics careers, thus making such counseling a benefit "incidental to a student's participation in intercollegiate athletics."

2. Approved in principle the committee's recommendation that a voluntary program be established whereby an individual interested in serving as a player agent would be registered by the NCAA.

3. Directed the Administrative Committee to consider whether legislation should be sponsored to permit a student-athlete to obtain a loan to purchase insurance against a disabling injury that would prevent the individual from pursuing a professional athletics career.

A complete listing of all substantive NCAA Council actions in the October meeting will be published in the October 24 issue of The NCAA News.
